THE PROHIBITIONISTS.

A Full County Ticket Placed in the Field.

NAMES OF THE CANDIDATES.

Opera Hall Crowded with Delegates From the City and County—The Work of a Day.

The Prohibition County Convention met yesterday morning at 10 o'clock in Opera House Hall, which at that hour was crowded with delegates who hailed from all over the county.

C. A. Abbott, of Pasadena, called the Convention to order and Rev. W. B. Stradly offered up an invocation for the success of the cause.

Chairman Abbott then stated the reason for the call and read a list of the officers to be nominated by the delegates present. He called for nominations for temporary officers, and nominated Mr. C. M. Parker for Temporary Chairman. Mr. Parker was unanimously elected.

F. M. Porter was then elected as Temporary Secretary.

Mr. Ellsworth offered a resolution to the effect that all visitors be permitted to take part in the deliberations of the day except when a division was asked by a regularly elected delegate.

An amendment was offered that such visitors who wish to take part must take the party pledge first. Accepted by Mr. Ellsworth.

Mr. Gould thought that all Prohibitionists should be allowed to take part in the deliberations. He would move as a substitute that all Prohibitionists present be allowed to vote on all questions offered.

The matter was finally referred to the Committee on Rules, when such a committee shall be constituted.

Mr. Abbott moved that a committee of five be appointed on credentials. Carried.

The committee was then appointed as follows: C. W. Abbott, Pasadena; C. W. Brown, Pomona; J. R. Townsend, Los Angeles; Chauncey Rush, Santa Monica, and Dr. Cook, of Long Beach.

Rev. Mr. Stuntz proposed that the chairman appoint a committee of five on permanent organization.

A recess for fifteen minutes was taken at this point in order that the delegates might get acquainted.

The Committee on Permanent Organization was appointed as follows: John H. Stuntz, G. E. Maharry, H. H. Matlock, C. R. Dougherty and W. R. Goodman.

After recess the chairman reported that the Committee on Permanent Organization would not be ready to report for some time, so he would appoint a committee of five on platform and resolutions, and one delegate present asked that a lady be appointed on that committee.

The Committee on Permanent Organization reported as follows: Chairman, E. E. Keich, of Santa Ana; vice-president, Rev. S. A. Thompson, of Pomona; secretary, F. M. Porter, Los Angeles; assistant secretary, Mrs. Mary E. Garbutt, Los Angeles. Report adopted.

The Committee on Platform and Resolutions was then appointed as follows: W. D. Gould, Mrs. Keyes, Mrs. Dr. Mills, G. A. Gibbs and Dr. Dunn.

Chairman Keich said he had often been annoyed by long speeches, and would therefore call for the regular order of business with a speech.

Jesse Yarnell asked that as the Committee on Credentials was not yet ready to report Dr. W. R. Goodwin, should give his impression of the National Convention.

Mr. Gould moved that first be it decided to nominate the officers in accordance with the printed list in the hands of the delegates, when the nominations were in order. Carried.

Dr. Goodwin then took the platform and occupied the attention of the Convention for twenty minntes.

The proceedings after the noon recess were opened by a prayer from Dr. Miller, after which Miss Hutchinson, sang a prohibition song.

The Committee on credentials reported as follows:

With regard to the sixth and Tenth precincts of Los Angeles, your committee finds:

1. That these two precincts were formerly combined and known as the Sixth precinct.

2. Two calls for primaries were made by citizens of these precincts in the absence of timely notice from the County Secretary, who lives in the Tenth precinct.

3. Under these calls two full delegations were appointed. Credentials from the Sixth precinct contain names of residents of both Sixth and Tenth precincts.

4. The old Sixth, comprising the new Sixth and Tenth, is a large district, and is a stronghold of Prohibition, and your committee believe it is duly entitled to twenty delegates. Hence we recommend that the following named persons be accepted as delegates to this Convention without discussion, viz: J. R. Toberman, H. C. Witmer, Mrs. Lucy More, Jesse Yarnell, Dr. J. Mills Boal, R. R. Haines, Mrs. S. A. Keyes, W. B. Stradley, Mrs. Mary E. Garbutt, A. H. Longley, James R Townsend, Capt. A. D. Wood, Rev. W. R. Goodwin, E. K. Green, Will D. Gould, Mary L. Gould, J. H. Blanchard, Lucy S. Blanchard, M. A. Blanchard, Rev. J. W. Ellis.

Also recommended that 197 delegates were entitled to seats.

The report was adopted as read.

Dr. Goodwin moved that a mass convention be declared. Carried.

It was moved that for the future the conventions shall be only delegate conventions. Carried after some discussion.

Nominations were then declared in order and the following were nominated without opposition: For Treasurer, H. C. Witmer; County Clerk, J. E. Keich, of Santa Ana; Auditor, H. Eno, of Pomona; Sheriff, H. H. Matlock, of Los Angeles; Tax Collector, Joseph Glass, of Pasadena; Recorder, Henry Rankin, of Vernondale; Surveyor, E. M. Jessup, of Pasadena; Coroner, Dr. W. H. Ross, of Compton; Public Administrator, Dr. J. Pirtle, of Duarte; Senator 39th District, C. W. Abbott; Assemblyman from 76th District, Rev. J. W. Baumgardner, of The Palms; 77th District, Rev. W. B. Stradley; 78th District, Dr. C. W. Brown; Supervisor 2nd District, S. A. Widney; 4th District, J. J. Harshman, of Compton; 5th District, J. C. Thomas, of Santa Ana; District Attorney, J. H. Blanchard.

It was decided on motion of Mr. Gould to refer the selection of candidates for Superior Judgeship to the County Central Committee.

It was also decided to allow the Prohibitionists in each district to select their own candidates for Justice of the Peace and Constables.

The County Central Committee was given the power of filling all vacancies on the ticket from the members of the party,

Some discussion followed as to the manner in which a County Central Committee should be accepted and it was finally determined to select one member from each precinct in the county.

The nominations were: Alhambra, Geo. F. Beauvard; Artesia, G. W. Cowan; Cahuenga, E. C. Gird; El Modena, I. B. Mills; Santa Ana, F. J. Hoyle; Compton, Nelson Ward; Downey, E. G. Greeney; Garvanzo, W. S. McClure; Vernon, W. E. McMartin; Duarte, A. S. Daniel; Fulton Wells, George Hazard; Louglerach, Dr. Cook; Glendora, A. J. Miller; Glendale, W. S. Hayes; La Ballona, Phineas Tibbetts; South Pasadena, J. M. Gregg; Pasadena, Dr. Syman Allen; North Pasadena, J. M. Glass; Norwalk, H. E. Rowland; Pomona, B. N. Burrett; Santa Monica, I. W. Hull; University, E. Luke; Westminster, Rev. Goodsell; Whittier, Dr. Jessup; Los Angeles, Jesse Yardwell, Will D. Gould, H. C. Whitmer, A. D. Wood, Charles E. Benedict, F. M. Porter, J. S. Townsend, Mrs. Lucy Moore, Lucy D. Blanchard and —— Simmons.

Mr. Gould moved to make James A. Blanchard chairman of the committee. H. C. Whitmer was also nominated. Mr. Blanchard was elected.

The Committe on resolutions reported as follows:

Your committee beg leave to recommend the adoption of the following resolutions:

Resolved, That we heartily indorse the State and National platforms adopted at San Francisco and Indianapolis by the late State and National conventions, and pledge our earnest support to our national standard-bearers, Clinton B. Fisk and John A. Brooks.

Resolved, That no assessments shall be levied upon the nominees of this convention.

Resolved, That the County Central Committee be requested to appoint meetings in all the precincts in this county for the discussion of the principles of the Prohibition party, and request all the nominees of the party and their friends to attend such meetings and address the public.

Resolved, That every member of the party be requested to contribute $1 and as much more as he or she may be able and deem their duty, toward carrying on an intelligent, patriotic and successful campaign.

Resolved, That this Convention tender a vote of thanks to Dr. W. R. Goodwin and all other speakers and helpers who have aided in promoting organization and the advancement of Prohibition in this county.

Resolved, That we favor the formation of home protection leagues, Prohibition clubs, the circulation of temperance literature, and every other honorable means for the destruction of the drink traffic.

Resolved, That we commend the efforts of the Woman's Christian Temperance Union everywhere, and recommend that the Christian and temperance women in every precinct take an active interest in the coming campaign, and attend and aid at the polling places in the county at the ensuing election by distributing ballots and pleading with the voters to protect their homes.

Resolved, That we are in favor of the establishment of township governments in this State, and demand the election of Senators and Representatives to the next Legislature who shall do their sworn duty to give this State township government, as required by the Constitution, whereby the drink traffic may be driven from the country as well as from the villages and cities. Respectfully submitted,

WILL D. GOULD,
J. D. MILLS,
G. A. GIBBS,
J. A. DUNN.

After the adoption of the report of the committee the Convention adjourned *sine die*.

The torch-light procession and ratification meeting of the Prohibitionists did not materialize as Col. Sobieski, who was to be one of the speakers, failed to arrive in time. However, he arrived last night on the overland train, and it was determined to have the meeting to-morrow evening. There will be no torchlight procession but the speaking will take place on the platform erected by the Democrats in front of the Court House. Col. Sobieski is a very humorous and entertaining lecturer and has become much noted in the East by his temperance lectures and the lecture on the "Downfall of Poland," he being of Polish descent. Dr. Goodwin, who has been very active in Southern California as a temperance and Prohibition orator and organizer, will also address the meeting.

A Flighty Runaway.

A runaway horse had things all his own way and created a good deal of excitement in town about noon yesterday. He came dashing down Hill street with the two front wheels of a wagon trailing behind him and shreds of tattered harness dragging on the ground. He made a detour on to Fort street, along which thoroughfare he proceeded at full gallop to Franklin, where he turned and went for Spring street. He succeeded in breaking up three or four buggies on this artery of traffic and nearly ran over several ladies and children who were crossing the street. He turned down Court street and then went via Requena street for East Los Angeles, all attempts to capture or head him off being in vain.

Home Again.

A host of Angeleños who went to San Diego to witness the finish of the yacht race between the Aggie and Lurline, returned yesterday. One party consisted of Mr. Schuyler Cole, Miss Cole, Miss Grace Cole, Mrs. J. F. Crank and Master Bert Crank. Another was composed of Judge O'Melveny, Miss O'Melveny, Miss Cora Tubbs, Miss Banning and Miss Lucy Banning.

The S. M. White Club.

The Stephen M. White Club will hold a regular meeting to-morrow evening at 7:30 o'clock in the County Central Committee rooms No. 17 N. Main street. Every member of the Club is requested to attend as business of importance is to be transacted. Mr. Portland C. Hunt and Col. J. C. Maccabe will address the meeting. All good Democrats are invited to attend.

THE RAILROADS.

Arrival of a Number of S. P. Officials.

WHAT THEY ARE HERE FOR.

Short Bits of Gossip About the Iron Highways and the People Connected Therewith.

Peter J. C. Strobridge, Chief of Construction; Mr. W. G. Curtis, Assistant General Manager, and Superintendent of Track Mr. Arthur Brown, Superintendent of Bridges and Assistant Engineer Gillette, of the Southern Pacific, arrived in the city yesterday from the north in the special car "California." They only stopped over a few minutes, and then proceeded to San Pedro, from which place they went to Tustin and returned to the city at a late hour in the evening. A HERALD reporter was waiting for them at the depot on their arrival, and boarding the car addressed Mr. Strobridge, who was standing in the lobby, as to the object of his visit.

"We have been to San Pedro," said that gentleman in reply, "to see how the preparations are getting along for the construction of the wharf there. The track is already laid and everything is ready to drive the piles, which we will proceed to creosote as soon as possible. I suppose you know that we intend to build a system of breakwaters, and in fact will make San Pedro one of the finest harbors on the coast. We went over to Tustin to inspect the new line which has just been completed between Polhemus and that place. We found everything satisfactory, and the Pacific Improvement Company will therefore turn it over to the operating department of the Southern Pacific at once. We do not intend to build out from Tustin on to the San Joaquin at present; in fact I do not know of any decision having been made to build into San Diego by any route just yet. We leave to-morrow for Colton, and en route will inspect the work being done on the Dedez spur below Cucamonga. The Southern Pacific has decided to build a road from Colton to San Bernardino, and an outfit of men will be put to work on this as speedily as possible. From Colton we may go to San Diego, and will return here on Monday, when we go to Santa Barbara to look over the ground north of Ellwood, for we are going to close the gap on the coast line at a very early date. We will stay there a day or two and then return home to San Francisco, and there you have our full programme as at present arranged," concluded Mr. Strobridge, pleasantly.

Pullman Passengers.

The following Pullman passengers left yesterday for San Francisco and the North:

By the 12:45 P. M. train—H. Konohan, Mr. Heidelberg, C. M. Nichols, Mr. Bates, Miss Shannon, O. C. Wheeler, W. H. Goucher, W. R. Townsend, Mr. Allen, H. T. Williams, Mrs. J. A. Woods, A. M. Damon, Mrs. Stevens, Miss Wright, Mrs. McDougal, J. P. P. Peck, H. C. Gager, G. A. Dobinson, J. C. Banister.

By the 9:30 P. M. train—R. B. Canfield, E. A. DeCamp, Mr. Whitford, E. F. Sproune, R. Townsend, Mrs. Congden, Mrs. F. C. Hall, E. Lonison, Mr. Willard, Mr. Allee, Mr. Spence, C. C. Person, H. L. Gibson, Mr. Hart, R. B. Canfield, R. B. Thayler, Mr. Edwards, Mr. Rosefield.

General Gleanings.

There are 153,000 miles of railroad in operation in the United States.

THE GRAND.

How It Has Been Changed in a Short Time.

A GREAT TRANSFORMATION.

A Free Fight at the Mile House. Other Local News of Interest.

The remodeled Grand Opera House will be thrown open to the public tomorrow night, and those who attend will scarcely believe that in so short a time so great a change could have been made. From the entrance on Main street to the back of the stage there is scarcely a feature which will remind the visitors in the least of the appearance of the house as it was six weeks ago. The lobby has been so changed by muriel and stucco work that it presents an entirely different appearance. The box office wherein Frank W. Conant, the popular Treasuer, has held forth for many seasons, has been entirely remodeled and enlarged. It is now the model box office of the Coast, and with its plate and stained glass is an ornament which greatly relieves and makes inviting the entrance to the theater. As elsewhere in the theater, the tone of the work is terra-cotta and bronze, and must be seen to be appreciated. The entrance to the lower portion of the house has also been entirely tion of the house has also been entirely changed, and passing through the portals as now arranged the visitor will gaze upon one of the prettiest interiors in the country. The upholstering of blue plush harmonizes with the bronze and terra-cotta of the walls and proscenium, and the brass rails around the lodge and proscenium boxes add to the general appearance in such a manner as to give the impression that a master-hand has had the arrangement of the work. The seats on the main floor are new, and are upholstered in blue plush. They have the latest attachments designed for the comfort of the audience. The center aisle has been taken out and two side aisles run from the back to the stage. Just below the dress circle are six lodge boxes, each holding four seats. These are upholstered in blue, and are surrounded by highly polished brass rails. At each rail are four proscenium boxes so arranged that each has an obstructed view of the stage. The decorations of these are in perfect keeping with the rest of the house. The proscenium arch is a marvel of beauty and attracts immediate attention. The prevailing tone here is bronze and terra-cotta, with which the drapery of the boxes harmonizes.

The former gallery has been turned into a family circle, in which the chairs formerly in the parquet and dress circle have been placed. The entrance to this part of the house is by two flights of stairs starting at each side of the lobby. Above this is the gallery, from every part of which the stage is in plain view. This gallery increases the seating capacity of the Opera House by about 500. The new drop curtain is one of the prettiest ever seen on this Coast, and besides this there are eight new sets of scenery which will replace those of which the public is somewhat tired.

Manager H. C. Wyatt is responsible for this change for the better in the Grand Opera House, and it was through his efforts that the architect, Mr. Woods, was engaged. The sale of seats for Denman Thompson will be at the new box office to-morrow morning.

A FREE FIGHT.

Three Men Shot at the Three-Mile House.

A serious shooting affray occurred during the week in John Farrell's saloon, at the Three-Mile House, on the Glendale road. Farrell has been giving a number of socials of late, and they are frequented by an assortment of citizens recruited from what is known as the "tough" element of the community. A dispute arose among some of these gentry, and terminated in a free fight, in which a man named Nicholls, from East Los Angeles, was beaten severely about the head with a bottle. Guns then became the order of things and a Los Angeles man fired three shots into the crowd, all of which took effect. One ball struck the wrist of one Sam Hunter and came out at his elbow; another entered the side of Fred Chaviz, foreman of Gaston's slaughter-house, and the third was received by a Spaniard in the leg. Chaviz was the worst hurt and Dr. Schumacher, who attended to the case, pronounced the wound a bad one, though not necessarily fatal. No arrests have been made up to date.

A Chemical Discovery.

Henry M. Rouchefault, a French chemist and engineer, who arrived in Los Angeles on June 18th, has returned from a fortnight's visit to the country southward of Elsinore. M. Rouchefault was induced to take the trip and inspect a large deposit of peculiar stone formation, found in that section by several citizens some time ago. The gentleman went especially to analyze the stone and ascertain whether or not it could be used in the manufacture of powder. M. Rouchefault says the deposit resembles that found recently in the south of France, and from which a French scientist has made the strongest explosive known to modern times. The stone he calls a species of saponified rock, strong in glycerine and can be made to produce a very strong natural nitric acid. The body of the rock is full of iron tincture and galena, while a strata of chrome ore permeates it. M. Rouchefault says he feels justified in making a favorable report as to the adaptability of the stone to the manufacture of a superior grade of nitro-glycerine and a very good grade of powder, which, by reason of its being entirely new, will have to be given a name.

Franco-American Choral Society.

The French colony instituted a Choral Society on the 4th of July, the object of which is to give its musical services gratuitiously on benevolent and State occasions. At 3 o'clock this afternoon, there will be a meeting and rehearsal of the society at Painter's Hall, on Aliso street, where it will also make preparatory arrangements to assist in the celebration of the 14th, the anniversary of the fall of the Bastile. On that occasion the society will render a fine poem written by Mr. Michel Faure, and set to the music of the "Marseillaise"—the words being sung by Mme. Louise Bresson and the chorus by the members of the Choral Society.

We are also informed that Mr. Faure will have the poem printed in an attractive form, and copies of it will be sold during the day, the proceeds realized to go to the fund of the French Benevolent Society.

NOT HARD TIMES.

How a Merchant Sold a Lease to the Santa Fe.

It is sometimes said by the unthinking that there are hard times. It is all a big mistake as these facts will show: When the Phillips building on the corner of Franklin and Spring streets was begun, Mr. H. Mosgrove leased one of the largest stores on the ground floor. The premises were to be ready a year and more ago. But the erection of such a block is not accomplished in a day; and the Phillips block is only now ready for occupancy. This state of delay upset Mr. Mosgrove's plans in a radical manner. His lease on the old store expired, and he had to renew it, securing more room for his increasing business. When the new store was completed he found his present quarters so well suited to his needs that a move was by no means an exigent matter. Fortune favors the brave, and in good time the Santa Fe Railroad Company came along and offered Mr. Mosgrove a cool $5000 hard cash on the nail to relinquish his lease to the store in the Phillips block. The shrewd merchant took the cash and is happy. The facts simply show that while so careful a corporation as the Santa Fe will pay a large bonus to secure fitting quarters in the heart of the city, that the times are not hard. The Santa Fe has twenty-two rooms on the upper floor of the building, where all their general offices will be at once established. This is an occasion for us to score one more for the Angelic City.

THE TARIFF QUESTION.

How Free Trade Will Affect the Clothing Establishments.

One of the principal issues of the tariff question is the effect that the delaration of free trade will have on the merchant tailors of the United States. It is well known that the choicest and most fashionable fabrics are imported from Europe, for some years ago the craze for English tweeds and Scotch plaids set in and ever since they have always been considered "good form" among well-dressed men. Messrs. Gordon Bros., the tailors of 22 South Spring street, have just received eighteen cases of these goods from Scotland and England in their main store in San Francisco, on which they have paid the customary 60 per cent duty; but realizing that there will be a sweeping reduction in prices when free trade is proclaimed they have decided not to keep them over for the next season and thus be left with a heavy stock of expensive goods on their hands. They therefore agreed to make a big cut in their prices, and visitors to their establishment from now on will be astonished at what low figures the excellent materials in their store-rooms have been placed. The eighteen cases referred to have been divided among all the branch houses, and consist of Scotch spring and summer goods in plaids and stripes of the latest patterns, and especially adapted to the requirements of Southern California. These fabrics have been selected with great care by experienced buyers, and another good point in their favor is that Messrs. Gordon have obtained the exclusive right to the patterns they sell. The enormous business done by this firm is sufficient evidence that the goods they supply are always first class, and as they have five stores in different parts of the country they are able, on all occasions, to place their charges lower than all other competitors. In Los Angeles they have made a brilliant record, and it is well known that all who purchase from them never afterwards deal with any other establishment. Their place of business in this city is No. 22 South Spring street, opposite the Nadeau Hotel.

Public Healing of the Sick One More Week.

"By these signs shall ye know them." Dr. Evans, who has been performing so many wonderful cures in our city during the past three or four weeks, again consents to open Masonic Hall, 29½ South Spring street, for the free treatment of the poor every morning for one week, commencing Monday morning, July 9th, from 10 to 11 o'clock each morning. He cordially invites critics and the skeptical to attend and witness for themselves whether he performs what he professes. Dr. Evans is a thoroughly educated physician as well as possessing a most remarkable magnetic power over diseases. During this course the Doctor will demonstrate the power of mind over disease, and many other phases of the healing art as practiced by him, in the instantaneous healing of disease. No friend of science or of the afflicted should fail to attend his lectures during this week and witness his cures, for he will certainly astonish you. Remember the time and place, Masonic Hall, 29½ South Spring street, every morning this week from 10 to 11 o'clock; also every Monday morning thereafter during his stay in the city. He can also be consulted by those who are able and willing to pay, at the Hollenbeck Hotel, from 9 A. M. to 6 P. M. of each day except the hour he is at Masonic Hall (except) Sundays. Consultation at the Hollenbeck Hotel free. Admission to Masonic Hall also free. Let none fail to attend his free lectures and treatments at the above hall, for he will amuse and instruct you as well as cure all manner of diseases in your presence.

A praise service by the Simpson, M. E. choir, assisted by others, will be given this evening at the chapel on Fort street, near Seventh, beginning at 8 o'clock. All are cordially invited.

ONLY A STRAW

Shows How Los Angeles Has Been Growing Lately.

SCHODER, JOHNSTON & CO.

A Great Commercial House Which Has Quietly Grown up During the Boom.

At numbers 114 and 116 Los Angeles street, in this city, is the great wholesale and jobbing hardware concern known as Schoder, Johnston & Co., incorporated in 1882 with a capital of $200,000. The store reaches back and abuts on Wilmington street, taking in numbers 25 to 30 on that thoroughfare. A few days ago a HERALD reporter was passing along Los Angeles street, and at the door of the store he encountered Mr. Schoder, a member of the corporation. As he knows all the members well, he stopped to chat for a moment, and this led him to enter the establishment where Mr. Johnston was found up to his eyes with business. These gentlemen always were hard workers, and the reporter readily recalls the days of small things, when the establishment was first set up, seeing both of them with coats off and sleeves rolled up, tugging away at the hardest and dirtiest work about the store. Things have greatly changed since then, and now the concern is one of mammoth proportions. It is such an excellent index of the growth of Los Angeles, and its story is so well calculated to act as an incentive to others to start some line of enterprise here, that it seems as if something ought to be said about the house.

AN ACRE OF GROUND.

In order to do this some data had to be gathered and this the reporter set about. He said:

"Gentlemen, this is a big affair, as compared with the store years ago, when I used to come here nearly every day. You remember the time when I was getting out that big illustrated catalogue for you? By the way, that book was the foundation of all your prosperity. It would take one ten times as big to give all your goods now."

This little reminiscence broke the ice, and so the two merchants, warming up to the newspaper man, went on to tell him of their great establishment with as much conscious pride as the Kings of Babylon exhibited over the great city they had built. In the course of the recital it was developed that the store is seventy-six feet on Wilmington street, with 25 feet of spare room alongside. It is about 330 feet long to Los Angeles street where it fronts on that magnificent thoroughfare 40 feet. The area covered is 42,500 feet, or almost an acre of ground. The building is two stories high, and the walls two feet thick below, and 18 inches above stairs.

In the rear part of the building is kept the heavy bar, sheet and boiler iron and steel. There are two doors, and teams pass in at one, go around the inside of the building, and pass out of the other. The Los Angeles street end of the premises is devoted to shelf and other light goods.

WHAT IT CONTAINS.

When one sets out to tell what there is in the place, it would save time if he were to reverse the operation and merely catalogue what there is not there in the way of hardware. There are all sorts and descriptions of heavy, bar, sheet, and hoop iron and steel. There is boiler plate of all thicknesses and of the best of all material. There are cast, wrought and silver steel in all sizes and for all purposes.

Above stairs there are to be found all sorts of things that go to make a wagon. There are hubs, felloes, spokes and tires, and wheels of all sorts ready set up. There are great stocks of all sorts of wagon material which the newspaper man cannot even tell the names of. Alongside of these are great piles of forks of half a hundred patterns and for all imaginable purposes—every kind of fork excepting the fork of a river is there. As many varieties of shovels, of hoes, of spades, of axes, wheelbarrows, and of all sorts of helves and handles, as there are of forks, were observed by the tens of thousands. There are blacksmiths' supplies, mining supplies and milling supplies of all sorts. Portable forges, anvils, hammers, sledges, vices, bellows and kindred articles lay all round in immense supply. There were little hammers which a baby might wield, and there were enormous sledges which would make a stronger back than a Sybarite's ache. Machinery supplies are as numerous in variety and as lavish in their amount as any other article in the store.

If a man thinks blacksmiths' supplies too suggestive of heat for these midsummer days, or if the reader be a Prohibitionist, let him take a look at the waterwork department. There is water pipe, and there is other pipe of all sorts that ever was made for any use or purpose. It is of all sorts of make that iron is used in. It is of all sizes, from a one-half inch to two or three feet in diameter, and there are water gates to match. Then there are couplings, faucets, and all that sort of thing, enough to bewilder one. Rubber in quantity made into hose of all sizes, and in all other shapes is there. Belting, both leather and rubber, lies about in piles. Wire screens are there in tons.

And then the nails! They are piled up to the dome. There are great stacks of kegs all full of nails. That is the only fault the reporter has to find. No man offered to open one of them to treat. There are little bits of nails and there are spikes a foot long. Building nails, shingle nails, finishing nails, horse-shoe nails, mule-shoe nails, jack-shoe nails, ox-shoe nails!

There are as many kinds of bolts as there are of nails and in as big heaps. The reporter in his astonishment asked to see a thunderbolt, but there was not one on hand. The last had been shipped East to be used in the July thunder storms. We have no use for them in the Semi-tropics.

BUILDERS' HARDWARE.

Perhaps the finest display in the store was in the line of builder's hardware. A line of Hopkins & Dickensons' bronze locks and butts led off among all the various display. In 1882, when Schoder, Johnston & Co. first opened their doors, there were being built here a few small, cheap cottages. The prices of these ranged from $1,000 to $1,500 each. It did not require a large, a varied nor a very costly selection of hardware to fill any orders that came in. At the end of six years, there are being built in this city as fine residences as any in the land can lay claim to. It is not much wonder here now to see a house whose total cost will run to $50,000 or $75,000. In the display of goods before the reporter's eyes there was everything desirable for the finishing of such a house, of a score of such, or half a hundred. So marvelous has been the growth of this city that it has called for the payment of every dollar of the $200,000 capital stock of this corporation. It is all paid up, all in the business, and all that the business has produced has been added to it. It takes money to carry such a stock as this at 114 and 116 Los Angeles street.

SCREWS, CARPENTER'S TOOLS, ETC.

Who does not like to handle a lot of screws? No sort of hardware has more fascination to the eye or to the sense of touch. It is a wonder no collector of curios has ever thought of gathering up specimens of all sorts of screws. Schoder, Johnston & Co.'s would be a good place to make a begininng. They are of iron, of brass, of all materials from which screws are made. They are of all sizes and for all uses.

Carpenter's tools of all kinds and of the best makes are to be found in this great establishment to even ship supplies in abundance. So are powder, fuse and caps. In fact no city in the land can boast a more complete and perfect establishment of any sort than is this great hardware store in the Angelic City. The goods are of the best makes, and they are sold at a very close margin of profit.

Mr. Johnston is President of the company; Mr. Schoder is Vice-President, and Mr. Scheller is Secretary. Well may these gentlemen feel proud of the great success which has crowned their wisely directed and vigorous efforts, and well may Los Angeles be proud of such an enterprise carried on by her citizens.

THE FUTURE.

The purpose of this enterprising corporation is to keep abreast with all the development of this section. At the moment there is no sort of need of any users of any sort of hardware, of wagon material or of any other line of goods carried by Schroeder, Johnston & Co. going away from home for their supplies. All that may be desired can be found here. The best goods are carried and the prices are as close as the best methods will permit of. This policy will be pursued as long as the concern may remain in the hands by which it is now managed. Whatever proportions the city may grow, to no matter what demand may arise for supplies in all these various departments of the trade, this house will keep in the front ranks with all the best in the country. Whatever improvements may be made in any branch, these will be found in quantity on the floors and shelves of this enterprising incorporation. Those who have the business in hand are experienced in all its details; they fully understand the needs of this city and section; the house is backed by plenty of capital and by plenty of good sense. Advantage will always be taken of all fluctuations in all markets, and in all these the customers of Schoder, Johnston & Co. will fully participate. The concern has the confidence of the entire trade of this section, and it will keep the confidence of every man who trades with it. It is a matter of the utmost gratification to the HERALD to be able thus to chronicle the great success of so energetic a business house, and thus to mark the progress and prosperity of the country—for by indirection as it is, yet no less certainly does such a mammoth enterprise emphasize the phenomenal growth and the increase in all material interests of the section on which it thrives.

Los Angeles Music Co.
About three months ago the firm of Steen & Plimpton, Los Angeles, Cal., was dissolved, Mr. H. C. Plimpton selling out his interest to Mr. W. T. Somes, and the business was reorganized under the firm name of the Los Angeles Music Co. This new firm now consists of Mr. S. M. Steen and M. W. T. Somes, and makes one of the strongest firms in every way in Los Angeles. Mr. Steen is well acquainted with every detail connected with the music business, and an active and thorough business gentleman. Mr. Somes, although new in this trade, is well known both in business and social circles in this city and vicinity, and has ample means at his disposal. The firm carries a complete line of goods, among which are the Chickering, Emerson, Sterling Pianos, and the Sterling Organs. The firm has lately secured handsome warerooms at 231 and 233 South Spring street, which have been tastefully finished, and being admirably located, make them on a par with any in the city. There is no question in our mind but that any one dealing with this firm will receive fair and just treatment.

Queen Shoe Store
Some ten years ago, when this city was as yet in its infancy, the "Queen" Boot and Shoe Store was first established here, and during that time it has grown with the city to its present proportions under the able management and foresight of Mr. Joseph Mesmer, who is in every respect a practical shoeman. The store, which is elegantly fitted up, contains one of the largest and most complete stocks of shoes on the Pacific coast, and the latest styles are always procurable. Mr. Mesmer's trade is not confined to this district, but extends over the surrounding Territories, and even to Texas. The maxim of this house is "Low prices and complete satisfaction," and it is fully carried out.

SHILOH'S CURE will immediately relieve Croup, Whooping Cough and Bronchitis.

James' Ginger Ale and Mineral Water Manufactory.
This extensive and well equipped manufactory was opened a short time since, and constitutes one of the most complete factories of its kind on the Pacific Coast.

The machinery is of the latest description, the generators being by Mondollot, of Paris. The corking machine is one of J. W. Tufts, of Boston, patented in March, 1888, and Dr. James, who personally manages the whole factory, considers it the best hand corker he has ever handled.

The extracts and flavorings are prepared by Dr. James at the laboratory in the factory, and the purity of all drinks and their freedom from metallic contamination is fully guaranteed. No lead or copper piping being used, the whole of the machinery with which the carbonated water comes in contact is either lined with or composed of, pure block tin, or plated with silver. A line of goods is manufactured here which has not hitherto been obtainable on this Coast at anything like reasonable prices. We may specially mention the Belfast Ginger Ale and plain soda water, which will bear the test of repeated trials. Medical men will be glad to know that they can have any kind of mineral water—Seltzer, Apollinaris, Vichy, Hunyadi Janos, etc.—made to order; and Dr. James being a practical chemist, will be a sufficient guarantee of the accuracy with which they will be prepared.

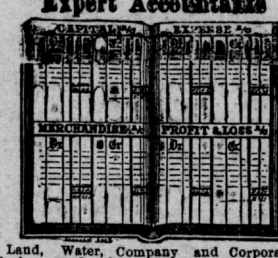

The water used is drawn from a stratum of fine sand, 18 feet in thickness, at a depth of 102 feet, and has proved on analysis to be a pure and wholesome drinking water, and thoroughly well suited for the preparation of Belfast Ginger Ale, and aerated waters in general.

Although this factory has only been opened some few weeks, Dr. James has frequently been obliged to ask the indulgence of his numerous patrons in consequence of being short of bottles. Those still waiting to be supplied will be glad to hear that two carloads are on their way to Los Angeles, and are expected to arrive towards the end of the month.

BURLINGTON ROUTE.

Overland Excursion.

Passengers joining these parties are in the hands of a responsible railway company, not an "excursion agency;" its employes are its representatives, and accustomed to serving the public.

Dates.—Trains leave Los Angeles on Thursdays and San Francisco on Fridays, meeting at Sacramento Friday afternoon. Dates are as follows: From Los Angeles—July 19th; Aug. 2d, 16th, 30th; Sept. 13th, 27th; and day following from San Francisco, Sacramento, Tulare, Fresno, Merced, Lathrop, San Jose, Stockton, Davis, Marysville, Colfax and Reno.

First class these excursions undoubtedly are in every respect, as no objectionable people are received, and each party is in charge of Burlington agents through to Chicago.

Free sleeping cars, properly provided with curtains, mattresses, blankets, etc. No extra charge for this, or any other service.

Rates, $35.00 is the price of a ticket from Los Angeles, San Francisco and most California stations to any Missouri river point, and only slightly more to points further east.

Scenery by daylight is a great feature, as these excursions will stop twenty-four hours in Salt Lake, and go by daylight through the Black Cañon or the Gunnison, across the Continental Divide, through the famous Marshall Pass, thence down the valley of the Arkansaw through the Grand Cañon of the Royal Gorge.

Further particulars are contained in Burlington route excursion folder, to be had at any ticket offices of the Southern Pacific and other railways, and at Burlington route offices below.

BECAUSE your blood is filled with Poison, which must be Completely Eradicated before you can regain health. You must go to the root of the matter. Put the Kidneys—the great and only blood purifying organs—in complete order, which is complete health, and with

Warner's Safe Cure

and WARNER'S SAFE PILLS your Cure is Certain.

WHY do we know this? BECAUSE tens of thousands of grateful men and women in all parts of the world have voluntarily written us to this effect.

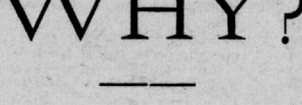

There is no stand-still in disease. You are either growing Better or Worse. How is it with YOU?

WHY not to-day resort to that medicine, which has veritably Cured Millions, and which will cure you if you will give it a chance.

All of Warner's preparations are Purely Vegetable. They are made on honor. They are time-tried. They are No New Discovery, Untried and Worthless; on the contrary, they have stood the test—they have proved their superiority. They stand alone in pre-eminent merit, and YOU KNOW IT.

A CALIFORNIA DISCOVERY.

The parasites, of which we give cut below, discovered by us, are the direct cause of Catarrh and Consumption, also many other diseases,.

Magnified 560 Times.

Imagine millions of these animalculæ in the nose, throat and lungs, as well as the minute eustachian tubes leading from the back part of the throat to the middle ear, and you will imagine the misery they can produce. Thousands are swallowed when the patient is asleep, causing kidney and liver trouble, headache, blood poison, general debility, etc. We have a specific for destroying them and expelling the poison from the blood. Use the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC COUCH AND CONSUMPTION CURE to take and the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC LINIMENT to apply, and if the stomach is bad, use the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC SYSTEM BUILDER it builds up the system and purifies the poisoned blood. They are manufactured from roots, herbs and flowers that grow in California, and are safe for children. They never fail. The Cough Cure is excellent for Coughs, Colds, Croup, &c., no child will ever die with croup when this is used. Our Liniment kills pain instantly. See our Trade Mark on every wrapper. Sold by all druggists.

Alexandre Weill

TRACT,

CENTRAL AVENUE,

Between Eighth and Vejar Sts.

This beautiful tract, situated near the heart of the city, was cut up and thrown upon the market after the so-called big boom of last year had

"folded its tent like the Arab
And silently stolen away."

But owing to its splendid location, moderate prices and liberal terms it has enjoyed a healthy

BOOMLET

From the moment when it was first placed before the public. It is the general favorite among the many beautiful subdivisions of the City of the Angels, and nothing will be left undone by the owners to make the tract the most attractive residence property east of Figueroa street. When all the improvements now under way and in contemplation will have been completed, some future Wordsworth, standing at the corner of Eighth street and Central avenue, and seeing the beautiful young settlement of lovely homes on the Weill tract, and the grand old mountain range of the Sierra Madre looking down proudly upon it, may well exclaim:

"Earth has not anything to show more fair;
Dull would he be of soul, who could pass by
A sight so touching in its majesty."

Full particulars in regard to prices and terms of the Alexandre Weill Tract, can be obtained at the office of the undersigned, who will be most happy to give intending purchasers a free ride and show them the property.

The Inconsistencies of the Republican Party.

It is not at all to be wondered at that intelligent men are disposed to laugh at the inconsistencies of the Republican party on the tariff question. The attitude of that party in 1883 and in 1884 is in painful contrast with its thimblerig antics now. Then it demanded a revision and reduction of tariff. The Republican body of which Henry W. Oliver was the President, marked out in 1883 a scheme of tariff reform, which even as to iron—he was a member of the heaviest iron firm in Pittsburg—made more pronounced reductions than are embodied in the Mills bill. Republican howls for a reduction of the surplus have been even more resonant than the temperate and statesmanlike appeals which have proceeded from the Democratic party. A few facts on this head will be interesting not only to Democrats but to fair-minded Republicans. In 1884, the National Republican Convention at Chicago, said: "The Democratic party has failed completely to relieve the people of the burden of unnecessary taxation by a wise reduction of the surplus. The Republican party pledges itself to correct the inequalities of the tariff and to reduce the surplus." Now it says that there are no inequalities in the tariff, but that the whole thing is perfect and must be kept sacred.

At the Republican Convention for the First District of Minnesota, held this present year, the following resolution was adopted: "Resolved, That we favor a careful revision and reduction of the tariff in the interest of labor and producing classes, especia ly placing lumber, salt and sugar upon the free list. We condemn the partisan and sectional tariff bill which the Democratic party is attempting to impose upon the country." What do Minnesota Republicans mean to do about it? Will they accept free whiskey and tobacco as substitutes for free salt, free lumber and free wool?

So far back as 1870, when internal taxation was a deal more annoying and burdensome than now, the Indiana Republicans, in Convention assembled, said: "A reduction of taxation is demanded, both of tariff and internal taxes, until it reaches the lowest amount consistent with the credit and necessities of the Government; and we are in favor of a tariff for revenue, believing that a proper adjustment of duties must necessarily yield all the incidental protection to which any industry is entitled."

Do the Republicans of Indiana think that a tariff which averages forty-seven per cent. and which is higher than it has ever been before in the history of the country, is as low as it might be and still be "consistent with the credit and necessities of the Government?" Unless they do they have no business voting with a party which has staked everything upon the maintenance of our war tariff. It is just as much the duty of honest Republicans to come out of the so called Republican party, as it was for liberty-loving Democrats to leave their party when it got down on its knees to the slave power. If Abraham Lincoln could walk the earth again he would not recognize the party of Mr. Blaine and his friends as that organization which he loved. It is not the same party. Mr. Blaine himself testifies to the change that has come over the party. The tariff of 1846 is commonly known as the Free Trade, or Walker tariff. The country prospered under it to such an extent that, says Historian Blaine: "It is not surprising that the Democratic Congress, in the closing session of Pierce's Administration, reached what has since been known as the tariff of 1857. By this law the duties were placed lower than they had been at any time since the war of 1812. The act was well received by the people, and was indeed *concurred in by a considerable portion of the Republican party.*"

THE Oakland *Enquirer* says that in no city in the Union was Fourth of July observed in a meaner or more reprehensible way. If this criticism had been made by an outsider the Oakland newspapers would have made the air sulphurous with their denials and denunciations.

IT IS somewhat singular that of the eight policemen whose resignations were demanded by a Board of Police Commissioners unanimously Democratic, seven are Democrats. The HERALD presumes that Mayor Workman and President of the Council Humphreys know that it has been usual for Republicans, since the organization of the grand old party, to arraign the efficiency of Democrats, and by the large number of Democrats marked for execution Democratic officials lend color to this idea. The charges against these men have been handed in on the Star Chamber process. They have not been afforded an opportunity for vindicating themselves. Of one thing we may be assured, and that is that the people of Los Angeles, in putting the municipal administration into Democratic hands, never for a moment contemplated such a pitiful and disheartening fiasco. The Democratic party of Los Angeles was never more vigilant, more fully organized or more aggressive than it is now. Now, as always, it is in favor of good local government, of strict party accountability and of an honest response to reasonable and legitimate party obligations. It would be absurd to suppose anything else in the floodtide of a victorious national Democratic campaign. If there were any scandal connected with Democratic administration of the Police Department the HERALD would be the first to denounce it. We find, as a matter of fact, that never so fully as now has there been a disposition to enforce the laws and to repress violence. It is a fact easily demonstrable that for efficiency and downright honesty the Police Department has never been so energetic or so effective as it is to-day. Under such circumstances it would seem that common sense, party fealty and the public good would forbid the Police Department, Democratic in all its membership, being run as a sort of tender to the locally defeated Republican party.

A TERRIBLE amount of silly twaddle has been written of Los Angeles city and county, and by journals ranging from the New York *Herald* to some yawper in the northwest. The great immigration of the best people in the country towards Southern California had been viewed with jealousy even in New York; for, unless the New York *Herald* was subsidized, nothing else could explain Mr. Nordhoff's change of position, and Mr. Nordhoff was its chief editor. At all events, the crusade which ranged all around the board had a very salutary effect in this section. It looked for a moment as if the craze for speculating in outside townlots had about reached the stage of madness; and the halt thus called, although it was inspired by envy, was wholesome. It was really favorable for future well-based real estate speculation, for now the new-comer is certain to have a large and immediate margin of profits—a thing of which he could not be certain in an era of hectic real estate upheaval. The wholesome and corrective effect of a halt is fully realized by our more sagacious real estate speculators and property owners; and our local banks, with wise forethought, contributed to the needed revolution. To-day we enter upon the Summer with the most substantial evidences of prosperity we have ever known. Improvements, and upon a colossal scale, have never been so rife as now. Fine streets are coming daily into being; business edifices which would grace the Rue Des Italiens are springing up on every side; great areas of our fertile lands are being converted into orchard and vineyard, and everything is auspicious for a healthy and enduring prosperity.

THE demonstration which will signalize the return of Lieutenant-Governor White to Los Angeles from his attendance at the Democratic National Convention at St. Louis will be a thorough one, and it should be participated in by Democrats from all parts of the county. It ought to be made a "rouser." California was most potential in the deliberations of that body; and Los Angeles county, in the person of our gifted fellow-townsman, was recognized in a most conspicuous manner. The nomination of Thurman, who has immensely strengthened the ticket on this Coast, was unquestionably due to the California delegation. Mr. White comes fresh from the center of Democratic enthusiasm, and will let our people know how strong and impetuous is the whelming torrent of popular enthusiasm upon which Cleveland and Thurman will ride into power. No "bar'l," whether of pampered manufacturers or of New York bankers enriched, like Morton, beyond a just and natural standard, will figure in this Democratic outpouring, nor will its glories be purchased by heavily assessed Federal officials. It will be the spontaneous tribute of the masses to approved public service and to merit; and it will, we venture to predict, be a memorable one.

THE financial condition of Los Angeles, as shown by the half-yearly statements of our banks, is certainly very gratifying. We yesterday called attention to the splendid exhibit of the Farmers and Merchants' Bank. To-day the statements of the University Bank and the Childress Safe Deposit Bank are advertised. These are comparatively new institutions, but their sworn statements show their condition to be eminently sound and flourishing. We believe that the wise and conservative course of the men at the head of our financial institutions has averted disastrous reaction from the late tendency to over-speculation, and brought the community back into the high road to prosperity. The good effects of their sound financial policy are sensibly felt in the confidence that exists in business circles, and in the very positive signs of a healthy revival in realty sales.

A LOCAL contemporary raises a howl against the Mills bill because it has placed jute on the free-list. The farmers of California will take no stand in this howl. Until the State started jute works at San Quentin, the farmers of California were annually victimized by the corners made in grain sacks. They have been taxed in the last ten years $7,000,000 for duties on jute, and all this money has come directly out of their pockets in order to keep up a needless surplus in the treasury. The farmer impoverished by taxes on every implement he uses on his farm, has been further taxed in order to properly ship his grain to a foreign market. The relief he will secure by the placing of jute on the free-list is of vastly more importance than that jute-sack speculators should be enabled to make annual corners upon an article indispensable to grain growers.

IN THE telegraphic columns of the HERALD this morning will be found a special from San Francisco that will be read with interest, not to say with surprise, in that it ascribes the title to valuable property in the heart of the city of Los Angeles to the United States Government instead of the present occupants of the premises, who have considered themselves secure in the possession of the same from a deed granted by Julian Williams in 1849. The claims of the Government to the land in question are founded on the report of Surveyor-General Hammond, who bases his reasons for so reporting, on the facts set forth in our telegram. As the property has grown valuable in the hands of the present holders they will doubtless defend their rights to the utmost, and as a result, some interesting litigation may be expected to ensue.

ELSEWHERE appears a communication from a leading Democrat on the refusal of the Oro Fino Republican Club to accept a challenge from the Iroquois Club to publicly discuss the tariff. This a square backdown. Such an exhibition of the White Feather is seldom seen in a political campaign. It is a practical concession, both of the superior ability of the Democratic champions and of the superior merits of the Democratic position. We are not surprised at this Republican pusillanimity. Their campaign is based upon misrepresentation of the Democratic attitude on the tariff, and they dare not permit their followers to learn the truth, which would be the inevitable result of such a public discussion. It is doubtless mortifying to be obliged to take water in this ignominious manner, but it is a political necessity.

WE WERE accorded yesterday a glance at the interior of Childs' Opera House, and must say that we were delighted at the richness and extent of the improvements made. We shall not anticipate the agreeable surprise in store for our people on its reopening to-morrow night by a present description of its beauties; but will content ourselves with assuring them that no theater in the United States can surpass in elegance of interior finish, richness and artistic taste in decoration, comfort and style of seating accommodation, the temple that will be thrown open to the public to-morrow night by Manager Wyatt. It is a thing of beauty that Los Angeleños will hereafter point to with justifiable pride.

THE sale by H. Mosgrove & Co. of their lease of premises in the Phillips Block for $5,000 to the Atchison, Topeka & Santa Fe railway shows that that corporation takes considerable stock in the future of Los Angeles. The fact is that this city is the most pronounced railway center on the Pacific Coast and one of the most prominent in the United States. The great transcontinental railway lines that are centering here will be shortly reinforced by others, while the local railway building has no rival anywhere, in America or in the world. Such things are evidences of solid progress and development which cannot be whistled down the wind by envious detractors.

REPRESENTATIVE CANNON, although a pronounced Republican, is a man who does his own thinking. In a very racy debate yesterday on the Mills bill he told Pig-iron Kelley that if he could not construe the Chicago platform to suit his own views on protection, he would get off of it. For his part he preferred free sugar to free whiskey, and would vote as he believed. Joseph G. Cannon and Knute Nelson, of Minnesota, are the *avant-coureurs* of the Great West, which will not long dance to the music of the Eastern monopolists, who are eating the Protection oyster and dividing the shells between the farmers of the West and the wage-workers of the East.

THE Pittsburg lockout is costing the wage-workers of that city $20,000 per day. This is one of the beautiful results of over-protection. It closes the markets of the world against our manufactures, and compels our iron wage-workers to enforced idleness whenever the home market is glutted, or to accept starvation wages. Verily, American workingmen should be delighted with a protective tariff which protects the employers by oppressing the sometimes employed.

All Pleaded Guilty.

SACRAMENTO, July 7.—In the Superior Court this afternoon Henry Myers, John Olsen and William Drager were brought up for arraignment on the charge of grand larceny, and also charged with the murder of John Lowell. An order was entered that the defendants be taken to El Dorado county on the complaint of murder, and that the grand larceny cases be postponed in this county until after the El Dorado trials. On arraignment Myers pleaded guilty, and stated he with the two others had stolen the property. Drager finally pleaded guilty, and Olsen entered the same plea afterwards. The pleas were permitted to be withdrawn until Monday to give the attorney for the defendants an opportunity to examine into the legality of the information.

A SWEET SUBJECT.

Cannon's Sugar Amendment Discussed.

PIG IRON KELLY'S LAMENT.

The Chicago Platform Assaulted by Republicans—Free Whisky. Taxed Sugar.

[Associated Press Dispatches to the HERALD.]

WASHINGTON, July 7.—The House joint resolution was passed soliciting Leonard A. Harris, of Ohio, Jno. A. Martin, of Kansas, and John F. Hartranft of Pennsylvania, to fill the vacancies on the Board of Managers of the National Home for disabled volunteer soldiers.

The hour having expired the House went into Committee of the Whole on the Tariff bill. The pending amendment was that offered by Cannon, of Illinois, in the sugar schedule.

Kelly, of Pennsylvania, announced himself a Republican devoted to the doctrines of his party and to the utterances of its National Convention. He was a protectionist and believed the system of protective duties had developed the country to its present state of development. it was essential to the maintenance of that position. He was surprised to hear the gentleman from Illinois (Cannon) make an assault upon the platform recently adopted by the Republican party. He then quoted from the Chicago platform the protection plank, and regretted that the doctrine there ennumerated had been assaulted from the seats of Republican members. From the remarks made by these gentlemen, he dissented, in the name of the Republican party, at whose birth he had been, and to whose interests he had been devoted from that time to this. Kelly then defended the protective system in regard to sugar, and opposed the bounty policy.

At the conclusion of his remarks Mr. Nelson, of Minnesota, suggested that the gentleman from Pennsylvania was the only man who was thoroughly endorsed by the Chicago Convention. This remark caused considerable laughter.

Kelly accepted the compliment and said the Convention did endorse his position and he was ready to say: "Lord, lettest Thou now Thy servant depart in peace, for mine eyes have seen the glory of the Republican party." [Laughter.]

M'KENNA CHIPS IN.

McKenna, of California, said he too was a Republican and for that reason he rose to oppose the amendment. If it had a true basis of fact, or of principle, for the same reason urged to support it, every item of the Mills bill could be supported; for the same reason given to put sugar on the free list, every American product could be put on the free list. The amendment was opposed to the principle of protection. It was distinctly and accurately opposed to the Chicago platform. That platform declared protection to American industries to be the supreme principle of the Republican party. It conceded the necessity of a reduction of the revenue, but distinctly enumerated the means of reduction. Protection was not to be sacrificed if it was taken from any American industry. The gentleman might say, when you give bounties you give protection. He did not deny this; but what assurance could be given of the stability of this protection? Were the gentlemen willing to extend the bounty system to any other industry? Were they willing to interpret the Republican platform as differing from the system of bounties to the industries of the country? The question of protection by tariff and protection by bounty was not a verbal distinction. It was a substantial distinction. It was the distinction between what people were used to and what people were not used to, and he asked the Republicans of the House, when they were about to submit the question of protection to the hazard of dispute, not to cast into the scales, an odious and objectionable form of protection. The amendment was distinctly un-Republican, and distinctly antagonistic to the declarations of the Republican party in convention assembled. He was sorry, sincerely sorry, that the gentleman had offered the amendment. He hoped it would not receive any substantial votes. If it received a substantial Republican vote, he would go from the House disappointed in his party, disappointed in the belief that it expressed and affirmed that the principle of protection must be universal. The Republican party declared this was its universal policy, and it would succeed; it would deserve to succeed. [Applause.]

CANNON AND THE PLATFORM.

Cannon said the gentleman from Pennsylvania (Kelly) had seen proper to arraign the amendment and his (Cannon's) position as a Republican, as not patriotic. If the gentleman was correct about this matter, if the Chicago Convention meant what it said, and if he (Kelly) alone of a party of a million people who had the right to construe the platform, he (Cannon) must get off of it. He had no feelings save those of kindness toward the gentleman from Pennsylvania, but the gentleman could not ask him to sit still and listen to him (Kelly) placing the party to which they both belonged in a position which to his mind it did not occupy. In conclusion Cannon said he had to choose between taking the tax off whisky and off sugar, he would take it off sugar.

THE JAYHAWKER'S SORGHUM.

Peters, of Kansas, said he would favor a protective duty on sugar even if not a pound was produced outside of Louisiana, but it had been demonstrated that the highest grade of sugar, from sorghum, was produced in Kansas.

Bayne, of Pennsylvania, inquired if the sorghum crop had proved a success before the State bounty had been granted.

Peters replied that sorghum had been cultivated six years ago in Kansas. The bounty had nothing to do with the industry. Every farmer in that country where cane could be raised was interested in the protection of the industry. It was a certain and safe crop. Grasshoppers did not touch it and changes of weather did not affect it. Was there any use of talking to a Kansas farmer then about taking off the protective duty, because sugar could not be produced in the United States? He would be glad to see this industry assured protection by bounty, but nobody could give that assurance.

DIVERS OPINIONS.

Gear, of Iowa, announced himself in favor of the amendment for the reason that it was a sound practical business proposition.

Henderson, of Iowa, was for the amendment.

Anderson, Kansas, expressed earnest [illegible]

regarded as monarchical, imperial, and anti-Republican.

Holmes, of Iowa, criticised the amendment as embodying bad policy, bad ethics and bad legislation. He was opposed to the theory of bounties, and in favor of putting sugar on the free list.

Ryan, of Kansas, argued in favor of a continuation of the system of protection upon the sugar industry, and announced his opposition to the theory of bounty.

Bayne, of Pennsylvania, dissented from the construction placed upon the Chicago platform by his colleague, Kelly. There was nothing in that platform inconsistent with the amendment offered by Cannon.

Breckinridge, of Kentucky, then spoke briefly against bounties, and in commendation of the Mills bill.

Pending a vote the Committee rose and after the transaction of some minor business, the House adjourned.

TRANS-CONTINENTAL LINES.

The Association Still In Session. Perplexing Questions.

CHICAGO, July 7.—The Trans-Continental Association has not yet concluded its labors. The fact is there has been no end of wrangling and that this wrangling is not yet over. There is considerable trouble brewing between the Southern Pacific and Union Pacific roads on account of the sugar traffic. The Canadian Pacific road has taken shipments of sugar at rates much lower than are charged by the direct lines from San Francisco to Omaha. The Southern Pacific is anxious to makes rates so high that the traffic will be driven from its lines entirely. The Union Pacific wants to make low rates and the result is a locking of horns. Another thing that is bothering the transcontinental lines is their reluctance to permit the opening of the Burlington Mount Shasta Line from Portland to Denver and the East at San Francisco rates.

The transcontinental lines have always required Eastern lines selling their excursion tickets to make tickets in the form of an exchangeable order on Missouri river points. This arrangement complicated business for the railroads and for the passengers. The Western lines have now agreed to issue a circular under the terms of which Eastern lines, if they see fit, may ticket their passengers through from the East to the West provided they use the form of tickets desired.

The Turf.

CHICAGO, July 7.—Washington Park—Weather fair, attendance large. The track was safe and good, but not extra fast.

SAN FRANCISCO, July 7.—Pioneers 7, Haverlys 6.

LOUISVILLE, July 7.—Louisville 9, Cleveland 0.

CINCINNATI, July 7.—Cincinnati 0, Athletics 7.

ST. LOUIS, July 7.—St. Louis 3, Brooklyn 6.

KANSAS CITY, July 7.—Kansas City 13, Baltimore 9.

PITTSBURG, July 7.—To-day's game between Pittsburg and New York was dull and uninteresting. Score: Pittsburg 4, New York 6. Batteries: Staley and Carroll for Pittsburg; Keefe and Ewing for New York.

INDIANAPOLIS, July 7.—Healy's pitching was too much for the Phillies to-day. Score: Indianapolis 4, Philadelphia 2. Batteries: Healey and Daily for Indianapolis, Casey and Clements for Philadelphia.

CHICAGO, July 7.—The Bostonians got their work in, in the fifth to-day when they knocked out six runs and queered the Colts. Score: Chicago 4, Boston 9. Batteries: Krock and Daly for Chicago, Sowders and O'Rourke for Boston.

DETROIT, July 7.—The home team lost to-day by bad fielding. Score: Detroit 2, Washington 3. Batteries: Gruber and Bennett for Detroit, O'Day and Arundel for Washington.

Storm in Arkansas.

ST. LOUIS, July 7.—A *Post* dispatch from Evening Shade, Ark., says: A terrible rain and hail storm visited Sharp and Independence counties Wednesday. The damage was great. Sixty-five farmers in the vicinity of Charlotte lost everything in the way of crops, corn, oats and cotton being entirely destroyed. The sufferers are nearly all poor, and steps have been taken to aid them. The destruction is almost equally as great beyond Evening Shade. Fencing, crops and trees were felled. Corn in tassel was cut down as if by a knife. In the fields not a stack of cotton is left standing. A fourteen-year-old boy was struck by lightning during the storm. No other lives were lost as far as reported.

Stolen Securities Captured.

PROVIDENCE, July 7.—The Union Bank officials have received word by cable that a whole bundle of securities, bills receivable and other property, stolen by Chas. A. Pitcher, the defaulting teller, has been recaptured in London. Pitcher had mailed them "J. A. Roberts," his assumed name, and believed them safe from the bank, and that it was in his power to keep their hiding place a secret until the bank would be ready to compromise and come to terms on the basis of Pitcher's holding on to $150,000 cash. His stealings aggregated $700,000.

A Suicide.

VALUABLE PROPERTY INVOLVED.

The Surveyor-General Throws a Cloud on Important Titles in this City.

[Special to the HERALD.]

SAN FRANCISCO, July 7.—The *Examiner* this morning publishes a dispatch from Washington containing a report made by Surveyor-General Hammond, of California, to the Commissioner of the General Land Office, which discloses evidence of the ownership by the United States Government of valuable property in the heart of Los Angeles, lying northeast of Commercial street and southeast of Main street, and now occupied by Mrs. M. A. Woodworth and by parties named Flashner, Mayfield, C. Ducommun, Griffith and Slivan.

Surveyor-General Hammond states in his report that he has discovered among the Spanish archives in his office, and also obtained from Los Angeles officials, deeds and other documents which show that Don Pio Pico, the last of the Mexican Governors in Upper California, whose authority ceased in that department in July, 1846, established Los Angeles as the capital of the department, and on April 1, 1845, more than a year before his authority ceased, purchased the aforesaid tract of land on behalf of the Mexican Government, and with the funds of the Mexican Government, from one Julian Williams, for the sum of $5,000. There was a building on the lot at the time, which Governor Pico used for Government purposes. After the American occupation the United States troops occupied this property and took possession of it as Government property. No records can be found of any relinquishment of title by the United States, but in December 1849, after the United States troops had been removed from the property, Julian Williams deeded the same property, which he had previously transferred to Governor Pico, to one D. B. Wilson, and and from the latter person the present occupants now claim title to the land. The report contains the original deed from Williams to Governor Pico, also the testimony recently given by Governor Pico, and other documentary evidence.

MARYSVILLE.

Insurance Being Adjusted—Getting Rid of Tough Characters.

MARYSVILLE, June 7.—A large number of the insurances have been adjusted, and the adjustments thus far aggregate about $400,000, or one-half the insurance on the whole property burned on the 5th inst. Most of the property owners in the burned district will rebuild at once.

In the Superior Court to-day, Judge Keyse affirmed the decision of the Police Judge in refusing to allow Wm. McCool, convicted of vagrancy, a jury trial. He cited many decisions justifying his judgment in sustaining the lower court, and concluded by saying that the statute relating to this would become a dead letter if left to juries. Marshal Maben says, under this ruling, he will soon rid the city of tough characters.

Coast Cullings.

At Stockton the body of Willie Huddleston, a 13-year-old colored boy, drowned in the San Joaquin river, Thursday, last, was found Saturday afternoon.

The Nevada county Board of Supervisors offer a reward of $300 and the sheriff a reward of $100 for the arrest and conviction of the murderers of Joseph Kneebone.

At San Francisco, Carl Jensen, a Norwegian sailor, was drowned in the bay by the upsetting of a small boat in which he and two others were pulling ashore. The other sailors escaped.

The prize of $20, offered by the Board of Horticulture for the best essay on crystalizing fruit, has been awarded to J. J. Pratt, superintendent of the Sutter Canning and Packing Company.

The Cornish wrestling matches began on the Fourth of July at Grass Valley, Cal., Saturday afternoon. There were forty-eight contestants and six coin prizes. James Cross won the championship and $100.

The steamer Montserrat, from San Jose de Guatemala, with the first consignment of tropical fruits ever shipped to San Diego, passed Ensenada on Saturday and was expected to arrive at San Diego early Sunday morning.

At Yuma, Ariz., Antonio Lorette, ex-County Treasurer and a prominent Yuma merchant, committed suicide by shooting himself through the head. Depression caused by sickness of many year's standing was the supposed cause.

The schedule of Barclay & Robertson, the San Francisco commission merchants who assigned some two weeks since, was filed on Saturday. Their total liabilities are $27,230; assets, $15,803. The Bank of British Columbia is their chief creditor, $12,284.

Small boys playing with firecrackers set fire to the office of the Lodi, (Cal.) *News*. The fire gained such headway that before anything could be done, the office of the *News*, San Joaquin bakery, a residence owned by J. Nevins and the residence of Dr. Grant were entirely destroyed. Loss, $5,000; insurance, unknown.

N. B. Brackenridge, the Mendocino county timber dealer, who obtained considerable notoriety in the Clara Belle McDonald divorce case by testifying that he had been employed by R. H. McDonald to pretend an attachment for Mrs. McDonald in order to cut out Seneca Swalm, was arrested at San Francisco on Saturday on the charge of obtaining money under false pretenses in land transactions. He will be taken to Mendocino county shortly.

Ejecting Settlers.

SAN FRANCISCO, July 7.—The *Examiner's* special from Topeka, Kan., says: Suits were commenced to-day in the Supreme Court to eject 300 settlers in Allen county from their farms. The controversy relates to about 30,000 acres of a grant of land made by Congress in 1862 to the Missouri, Kansas and Texas Railroad. The question is whether the description filed by the road covers these lands or not.

A Sensational Scandal in Sleepy St. Louis.

FLIGHT OF AN UNFAITHFUL PAIR.

An Editor's Clandestine Elopement. A Put-up Job—Crime and Criminals.

[Associated Press Dispatches to the HERALD.]

ST. LOUIS, July 7.—The most startling social sensation that has occurred here for many years was revealed to the public this afternoon, when it was announced that Henry W. Moore, managing editor of the *Post-Dispatch*, and the wife of John W. Norton, manager of the Grand Opera House and Olympic Theater of this city, left the city together last night in a clandestine and scandalous manner. From developments it appears the couple had been unduly intimate for over a year, but their liason was not known to Norton until Thursday last, when the fact was conveyed to him through an anonymous letter. On Thursday evening Norton met Moore and Mrs. Norton at the corner of Lucas and Jefferson avenues, in the western part of the city, and attempted to shoot Moore, but was disarmed by a friend who was passing at the time. Mrs. Norton yesterday removed her money and other valuables from the safe deposit company, amounting to about $20,000 and at 10 o'clock last night she and Moore left the city in a carriage. At this writing it is not known where they went nor who drove them out of town. Mrs. Norton before her marriage was named Emma Stockman and was a very handsome woman and an actress of high repute. She was born in Baltimore and is well known throughout the East. Norton is known the country over as a successful theatrical manager and cultivated gentlemen, and of high character both in and out of his profession. Moore has been managing editor of the *Post-Dispatch* several years and has a most estimable wife who is now at Manitou Springs, Colorado, with her only child, a boy six years old.

A PUT-UP JOB.

Manager Stone's Statement Analyzed—Hungry Detectives.

CHICAGO, June 9.—Speaking of General Manager Stone's statement of yesterday, Daniel Donohoe, attorney for the alleged Burlington dynamiters, said today: "When you come to examine the statement critically there is very little in it. It won't bear investigation. Stone makes the point that Bowles was receiving Brotherhood funds through Bauereisn. Of course he was, so were all the Brotherhood engineers in that division. The Brotherhood had never made any secret of that. In fact, they wanted the public to know they were supporting the men on strike. Then as to the numerous explosions. How is it that nothing was ever heard of it till now? We claim it is a put-up job on the part of a lot of hungry detectives who have to make a case to keep themselves in a job.

Southern Planters Settle a Feud With Firearms.

YAZOO CITY, Miss., July 7.—News has just been received here of a terrible tragedy which occurred this afternoon at Rising Sun Station, Le Flore county, five miles this side of Greenwood. Bad blood existed for some time between S. H. Whiteworth, a planter and merchant of that section, and Henry McCarty another local merchant. Whiteworth, McLean and Hoskins on one side, and Henry McCarty, P. H. Ivy and Sam Austin on the other side, met this afternoon. The first three entered the store of McCarty and Matthews armed with Winchesters and pistols. Some words brought on firing, and Ivy and Austin were instantly killed. Henry McCarty is missing and is supposed to have been killed also. Whiteworth and Ben McLean are badly wounded.

Still a Mystery.

NEW YORK, July 7.—The mysterious story relative to Joseph Muhr, the senior member of the firm of H. Muhr & Sons, is still a mystery. Mr. Henry Reich, the New York agent of the firm, was seen on the subject this morning, and said the matter looked mysterious, but he was expecting such an explanation as would soon set everything at rest. The published story he said was a mistake. A telegram referring to something of no general interest had been received. Muhr had never shown signs of mental weakness. Reich evaded direct questions, saying he would be better able to speak on the subject when the expected advices had been received from Philadelphia.

LONG BRANCH, July 7th—The Muhr case excited great interest here, but nothing definite could be learned. Some of Muhr's friends claim that overwork and too close attention to business have resulted in temporary aberration of mind.

PHILADELPHIA, July 7.—Jacob Muhr, of the firm of H. Muhr & Son, says the New York story about Joseph Muhr is ridiculous, but he would not enter into details.

The Iron-Workers' Lockout.

PITTSBURG, June 7.—The Amalgamated Association received notice this morning that the Independent Steel Company of this city, and the Newport Iron Company, of Newport, Ky., had signed the scale and would resume operations next week. The scale now has eighteen signatures, including two of the largest firms in the city. Manufacturers, however, still assert that the lockout is not broken and that the majority will stand firm until the workmen accept the proposed reduction.

CHRISTIAN ENDEAVOR.

Continued Session of the Society's National Convention.

CHICAGO, July 7.—At to-day's session of the Christian Endeavor Convention the feature of the proceeding was the seven-minute address on committee work, of Edward S. Niles, of Boston, who spoke on the "Missionary Committee." He received the most marked attention. He wanted to know what was the use of discussing Foreign Missions when there were ten thousand foreign infidels and idol worshippers being landed on our shores every month, when in a few large cities eighty thousand non church goers die and go to perdition every year.

An interesting exercise of the morning was the question box, conducted by Rev. J. Hill, of Medford, Mass. Rev. B. Blakeslee, of Spencer, Mass., addressed the Convention on "Our Publications." He made an earnest appeal for liberal support to the *Golden Rule*. Rev. F. W. McMillan, of Oberlin, Ohio, spoke on the topic of junior societies. A recess was then taken.

The Committee on nominations announced the following persons for election as officers: Moderator of the Conference, W. J. Van Patten, of Burlington, Vt.; Vice Presidents, Rev. J. W. Cooper, New Britain, Conn.; Wayland Hoyt, Philadelphia; Charles Deems, New York; S. F. Nichols, St. Louis; Bishop Samuel Fellows, Chicago; Robert Christie, St. Paul; Charles D. Barrows, San Francisco. The Committee on Credentials reported that there were twenty-five States represented in the Convention, 700 secretaries and 4,000 delegates. Treasurer Shaw reported that the pledges which had been made by the Convention amounted to $623.

Rev. Dr. Mitchell, Secretary of the Presbyterian Board of Foreign Missions, spoke on mission work in foreign lands.

Prof. W. R. Harper, of Yale College, spoke on "The Study of the Bible."

Miss Francis E. Willard, President of the National Women's Christian Temperance Union, delivered a lecture on temperance.

Gory Tragedy in Texas.

SAN FRANCISCO, July 7.—An *Examiner* special from Denison, Texas, says: Early this week a party of four pitched their tent at the head of a little stream in the Kenish mountains, about fifty miles from here. They came to hunt and fish and brought provisions to last some time. On the Fourth of July parties passing their camp discovered the dead bodies of the four men literally riddled with bullets. About fifty yards from the tent was the body of a white man, who was evidently a settler; by his side was a Winchester rifle. He had undoubtedly been one of the party with whom the hunters had had trouble. The Sheriff and posse left Stringtown Thursday night for the scene.

Glass-Makers' Schedule.

WASHINGTON, June 7.—A delegation of workingmen, engaged in making window glass, was heard by the Senate Tariff Sub-Committee to-day. They submitted a schedule which they said just covered the difference between the wages here and those abroad, and declared it to be impossible for them to continue the receipt of their present compensation if the duties are put down below the figures submitted.

General Sheridan.

NEW LONDON, Conn., July 7.—The Swatara anchored here at 6 P. M., after a run of ten hours from New York. General Sheridan continues to do well; he has shown no unfavorable symptoms and is apparently not at all fatigued by the day's journey.

Eastern Echoes.

At Haverhill, Mass., the Academy of Music was burned to-night. Loss, $100,000; insurance, $50,000.

The morning session of the National Conference of Charities and Corrections, Buffalo, N. Y., was occupied in reading papers on various subjects.

At Louisville, Ky., R. B. Parrish, a wholesale shoe dealer, reputed to be worth $100,000, committed suicide because he could not pay a $5 board bill.

Dr. Antonio Flores, the newly elected President of Ecuador, was given a complimentary dinner Saturday night at Delmonico's, which was tendered by several New York merchants who do business with the Republic. Sandiago Prez presided.

Advices from Southern Texas say terrible rains during the past few days have caused the washing out of the track on the Southern Pacific road near Orange and Beaumont, so that travel is completely blocked. In some places the water is nine feet deep over the track. It is believed travel will not be resumed for several days. One train of passengers has been bound in at a small station, and will, without doubt, need relief very soon, which will have to be furnished by boats.

Political Pickings.

The proprietor of the Washington *Sunday Gazette* announces that the *Gazette* will in a short time be issued as a daily morning Republican newspaper, advocating protection and the election of Harrison and Morton.

The committee which went to Rhinebeck to notify Hon. Levi P. Morton of his nomination as the Republican candidate for Vice President, returned to-night at 9 o'clock and went to their hotel. They will thence disperse to their homes.

About three hundred commercial travelers, acting in their individual capacity, called upon General Harrison last evening. E. H. Wolff, their spokesman, made a short speech. General Harrison replied in a well chosen speech, paying high compliment to the enterprise and intelligence of the commercial travelers, and thanking them for their kindly expressions.

The Republican County Central Committee met in Napa yesterday, and appointed the following delegates to the State Convention, which meets on the 31st instant: J. M. Morton, W. F. Fisher, Geo. S. McKenzie, John J. Rosenburg, H. A. Pellett, G. H. Francisco and H. H. Knapp. Hon. J. M. Morton, formerly Surveyor of the Port, was unanimously endorsed by the Committee for Presidential elector from the First Congressional District.

To Marry.

The following were yesterday licensed to wed:

Daniel Mendes of Los Virgines and Julian Sanches of Los Angeles.

E. C. Peck and Lida M. Walton of Los Angeles.

FOREIGN FINDINGS.

The Czar's Latest Scheme as to Bulgaria.

BISMARCK'S COUNSEL SOLICITED.

He Will Attend the Meeting of Emperors—Germany's Compact with Belgium.

[Associated Press Dispatches to the HERALD.]

[Copyright, 1888, by New York Associated Press.]

BERLIN, July 7.—The Czar has asked in an autograph letter to Emperor William that Prince Bismarck accompany the Emperor to St. Petersburg, where M. de Giers will formally present a proposal for a nominal Russian protectorate in Bulgaria. The proposal does not involve the occupation of the country by Russia. The candidate for the Bulgarian throne is to be appointed by an ambassadorial conference to be held in Vienna or Constantinople. If these terms are accepted the Czar will order the army corps, mustering on the Austrian and German frontiers, back into the interior. Prince Bismarck, at a Cabinet meeting yesterday, stated these proposals, and said he believed they offered a chance for a peaceful solution of the question, and that he intended to respond by going to St. Petersburg if the Austrian Government coincided in his views. Doubt is expressed as to whether Austria will consent.

A Warsaw paper, the acknowledged organ of General Ghourdo, asserts that the National party, with whom the Czar must reckon, is determined to reap the fullest results for the blood and money expended in Turkey. In the same article the Poles of Posen and Galicia are exhorted to rally round Russia in the approaching war with Germany.

THE DOCTORS' REPORTS.

The doctors' report on the malady of Emperor Frederick will be published on Tuesday next. The report deals strictly with the nature of the disease, and contains separate reports, signed by Professors Bardelben, Bergmann, Gerhardt, Kussmaul, Schretter and Schmidt. Neither Mackenzie nor Hovel signed the report. MacKenzie will issue a separate report, with a statement from an Austrian professor, Billroth, defending MacKenzie's statement.

WILLIAM'S ZEAL IN THE ART OF KILLING.

The Emperor in accepting the resignation of General Von Caprivi, conferred upon him the grand cross of the Red Eagle, and assigned him to the command of an army corps at the Au'umn maneuvres. The Emperor appears to attach the utmost importance to these maneuvres. It is his intention to further develop the cavalry service. He is also experimenting with a view to the employment of pioneers for both the construction and destruction of railway and telegraph lines, bridges and tunnels. His energy has vivified every department of the military service. The maneuvres will be of exceptional interest, representing the latest developments in the art of killing. The firing is to be under electric light, applied in various ways, now bringing into full view the attacked and again the attacking forces.

DIVIDING FRANCE WITH BELGIUM.

A statement printed in the Paris *Nouvelle Revue* on the alliance between Germany and Belgium is reproduced in papers here. While the statement is believed to be true in substance, it is considered inaccurate as to detail. No treaty has been concluded between Germany and Belgium, but it is known that Prince Bismarck has a written contract with King Leopold under which in the event of war with France, German troops will be allowed to pass over Belgian territory. If France should be conquered, Belgium is to be permtted to annex the French departments of Pas De Calais, Somme, Aisne and Ardenne.

SOUTH POLE EXPEDITION.

The South Pole expedition planned several years ago by Dr. Neumrier, of the Marine Observatory at Hamburg, in likely to start in the spring. The Imperial Government has been asked to defray part of the expenses. Emperor William has made a favorable response and has referred the question of the expedition to a committee of the admiralty.

LONDON CABLINGS.

Robert Garrett Coming Home—Meeting in Trafalgar Square.

LONDON, July 7.—Robert Garrett, of Baltimore, with his wife and sister-in-law, Miss Frick, sailed from Liverpool on the Umbria for New York to-day. Previous to his departure Garrett in an interview, said: "My return to the United States is occasioned by my brother's sudden death. I intended to spend the remainder of the summer in Europe and return to my home in October. I find, however, it is now imperative that I return to Baltimore for a few days to settle my brother's private affairs." In reference to his trip around the world, Garrett said it had been a thoroughly enjoyable one. He said the railroad situation in America was a subject that at present he did not care to discuss.

A large assemblage in Trafalgar Square this afternoon was addressed by Saunders and Conyebre. Resolutions were adopted denouncing Balfour, Chief Secretary for Ireland. Several scrimmages occurred during the proceedings, and finally the police charged the mob and made several arrests.

IRISH MATTERS.

An Irish demonstration was held today in Glasgow to protest against the imprisonment of John Dillon. Michael Davitt, who was one of the speakers, challenged Attorney-General Webster to try Parnell, if the law officers of the crown believed him guilty of the grave crimes alleged against him. He declared the Government leaders were false to their oaths, recreant to their duties and traitors to English law if they did not put himself and Parnell in the dock.

The meeting announced to be held at Roslea, at which Davitt was to speak, has been proclaimed.

CONFLICTING VIEWS.

Expressions of the London Press on Parnell's Explanation.

LONDON, July 7.—The *Pall Mall Gazette* says the ministers obviously do not consider Parnell's denial conclusive of his innocence. Their supporters declare the denial is false. The ministry papers say they they must either expel Parnell from Parliament or dismiss Attorney-General Webster. A middle course is incompatible with the honor and responsibility of the Government.

The *St. James Gazette* calls Parnell's statement a flabby mixture of unsupported denial, inaccuracy, inconsistency, misrepresentation and mendacity. If Gladstone, it says, continues to be the friend and ally of Parnell and does not clear himself from the reproach of indifference as to whether the charges are repelled or not, he will achieve apparently the impossible fact of further disgracing his name, his party and the country which gave him a chance for a splendid career.

The *Star* (T. H. O'Connor's paper) rejoices over the fact that Parnell will not fall into the *Times'* trap and subject himself to Attorney-General Webster's dishonorable trickery and unscrupulous and irrelevant cross-examining. Parnell, it declares, is now and has always been ready to submit his case to a committee of inquiry appointed by the House of Commons.

Broke the World's Record.

DUBLIN, July 7.—The visiting American athletes took part in the various contests at Ball's Bridge to-day and won several prizes. In putting the sixteen-pound stone Gray, of the New York Club, broke the world's record and took the first prize with a score of 44 feet.

An American Wins.

AMSTERDAM, June 7.—In the international cycling tournament to-day, Temple, of Chicago, won the bicycle race.

AMUSEMENTS.

Denman Thompson at the Grand Opera House.

Commencing with to-morrow night, Denman Thompson and company will occupy the newly-arranged stage at the Grand Opera House, and will play *The Old Homestead*, of which the Chicago *Morning News* says:

"Denman Thompson comes in good time, for when could he be more welcome than now, when childhood has its own way, and when the old folk, warmed and inspired by the laughter and song of treble voices around them, love to recall the days when they too were little people in a home that is very distant but always dear? Mr. Thompson's picture of the old homestead is very beautiful; there is nothing that is maudlin or vapid about it; it is full of healthy pathos, vigorous delicacy and the best tenderness. It appeals to that which is noblest in our natures, and by filling our hearts with sweet memories, it equips us grandly for the good works of this Christmas season."

The Dime Museum.

The popularity of the Dime Museum is on the increase and deservedly so, for the entertainments furnished are far above what could be expected for the money. There is scarcely a performance during the day or evening that is not crowded, and this week the stage performance is better than ever. Next week the Georgia Minstrels will occupy the boards.

The Pyke Company.

There was a good Saturday night house at the Pavilion last night to witness the closing performance of *Pinafore*, which was enjoyed hugely. To-night *Olivette* will be produced by special request.

A DAY BY THE SEA.

Splendid Bathing at Santa Monica. A Lively Town.

Santa Monica presented a very lively appearance yesterday, and as the day was uncomfortably warm, the number of bathers was legion. Every one, young and old, indulged in a dip in the cooling waters, the temperature of which could not have been better arranged by a system of hot and cold water supplies. Quite a number indulged in fishing from the pier, but as the breakers were unusually high, the sport was not particularly successful. The crowning incident of the day occurred about noon on the beach. A man who had evidently been paying very devoted attention to the shrine of Bacchus, lay sleeping calmly sleeping on the sand a few feet from the water. Suddenly a wave of mammoth dimensions burst upon the beach and completely covered the sleeper, who jumped spluttering from the ground, and looked daggers at the laughing crowd, who had not observed his impending misfortune in time enough to war him.

Santa Monica is going ahead with seven-league-boot strides, and the business part of the town shows a wonderful growth as compared with six months ago. A large steamer from housetop to housetop across one of the leading thoroughfares bears the inscription "Cleveland and Thurman," and is evidence that the City-by-the-Sea is a good stronghold for the Democratic forces. The hotels have a good quota of guests, many of whom are Angeleños passing the summer by the ocean's side in preference to the crowded city. Among the guests at the Arcadia are Mr. G. M. Lewis, a prominent Alabama merchant, and Mr. Edwin Goodall, of the Goodall-Perkins firm, of San Francisco.

Installation of Officers.

The duly elected officers of Court Los Angeles No. 7599, A. O. F., were installed on Friday evening by the District officers W. H. Richards, P. C. R., Mr. Thorn, P. C. R., of Canada, and Mr. Schaumberg, P. C. R., of San Francisco. The installation ceremony was conducted very impressively. Following is the list of officers for the ensuing term: W. A. Peabody, Junior Past Chief Ranger; W. D. S. Harrington, Chief Ranger; Wm. Mead, S. C. R.; E. J. Buschel, Treasurer; A. W. Darwall, R. S.; J. Stewart, F. S.; James P. Duggan, S. W.; Wm. Galbraith, J. W.; J. C. Neilson, S. B.; Don C. Grayson, J. B.; and J. A. Galbraith, Auditor for the long term. After the installation a social concert was given which reflected great credit upon the members of this young and flourishing Court, for the able management of the programme. A social hop, which was kept up until a late hour, ended the evening's enjoyment.

A Fine Boat.

Mr. Hancock Barrings new yacht La Paloma returned yesterday to San Pedro from San Diego with her owner and a party of friends on board. The boat, which was built in San Francisco, is a splendid sailer and one of the handsomest crafts on the Pacific Coast.

A Presentation.

Some time since a party of Los Angeles gentlemen visited the Colorado Cañon under the guidance of E. J. Curson, to whom they presented a cane on the gold head of which was the inscription: "To E. J. Curson, from his Grand Cañon Excursion Party, June, 1888."

Waiter (in Chicago restaurant)—"How d'ye like the steak cooked, mister?" Bobley (of New York)—"Aw, underdone, please." Waiter—"We don't do no French cookin' here, mister. Our steaks are jest set up rare, middlin', an' well done. Which 'll ye have!"—[Judge.

Notification Committee at Rhinebeck.

ONLOCKING MORTON'S MILLIONS.

Estee and the Gang Royally Entertained—Miscellaneous News Items.

[Associated Press Dispatches to the HERALD.]

NEW YORK, July 7.—The members of the committee to officially notify Levi P. Morton of his nomination for the Vice-Presidency were astir early this morning. Judge M. M. Estee, of California, Chairman of the Committee, was receiving visitors in the parlor of the Murray Hill Hotel at 9 o'cloed. Secretary Dougherty worked most of the night and looked wearied this morning. He went to the Grand Central depot at 9 o'clock, and when he returned to the committee's parlor he found half a dozen of the delegates awaiting him. As they strolled in Captain Dougherty had each affix his signature to the address which was to be presented to Mr. Morton. The document is very brief and general in its terms, filling less than a single page of parchment paper.

THE START FOR RHINEBECK.

Delegates Hendricks, Root and Carson, the colored contingent, did not meet the party at the hotel, and were not at the depot when the committee entered their special drawing-room car at half past 10 o'clock. Ex-Governor Chas. Foster, of Ohio, did not accompany the committee. The other gentlemen composing the committee all left, as well as substitutes from other States.

Soon after starting, Secretary Dougherty convened the Committee for a meeting on Ways and Means, and each member of the Committee then deposited with the secretary his pro-rata share of the expense of transportation. The time of the trip was consumed in discussing the political situation.

THE ARRIVAL.

The Notification Committee was met at the depot in Rhinebeck by the local committee, and amid cheering and the booming of cannon escorted to Huntington Place, where Mr. Morton is living. Mr. Morton arrayed in black clothes and looking splendid health, stood in the centre of his drawing-room and received the committee. Mrs. Morton, handsome and elegantly attired, stood beside her husband during the notification ceremony. Mrs. Morton's mother, Mrs. Street, and her brother, W. L. Street, and a number of friends of the family were grouped in the rear. The speeches were short and to the point. Chairman Estee clad in a black frock coat, and wearing a Harrison and Morton badge, was ushered into the drawing-room, and advanced to within a few feet of Mr. Morton. Immediately behind came the members of the Committee. Estee then delivered

THE ADDRESS,

Which was worded as follows: "The National Convention of the Republican party, recently assembled in Chicago, nominated as its candidate for President, General Harrison, and with equal equanimity selected you as its nominee for Vice President. By order of that Convention we were appointed a committee to notify its nominees of their selection. This pleasant duty has been in part performed in giving General Harrison, your associate upon the ticket, that notification. It only remains for us to discharge the further duty conferred upon us by this official notice to you. The country has already passed judgment upon your selection and it has met such universal approval that it is only left this Committee to add its own expression of their high appreciation of your own personal qualities as well as their confidence in your eminent fitness for the position to which the deliberate judgment of the Convention assigned you. In conclusion we believe that this notification to you will not be a meaningless formality, but that your nomination will result in a triumphant election."

MORTON'S REPLY.

MR. CHAIRMAN AND GENTLEMEN OF THE CONVENTION: I am profoundly sensible of the high honor which has been conferred upon me by the National Republican Convention recently in session at Chicago, and thank you, gentlemen, for the courteous and complimentary terms in which you have officially announced my nomination as the candidate of the Republican party for the Vice Presidency. I am also deeply sensible of the honor conferred upon the State of New York in the selection of a citizen in this State as one of the standard bearers in the approaching peaceful conflict of the two great political parties of the country, for supremacy in governmental control. New York represents to a large degree the business interests of all those ever-growing and wider-spreading communities of varied interests and industries, which it is the mission of the Republican party to foster and protect. The platform so wisely adopted at Chicago has this mission boldly in view, and by its enunciation of these principles makes the issue clear and distinct. I accept the position tendered by the Convention, of which you are the honored representatives, and will in due time address to you, Mr. Chairman, an official communication to that effect.

THE MILLIONAIRE'S HOME.

After Morton had finished speaking he invited his visitors to luncheon, which was ready to be served on the balcony, which is a beautiful one; rich wooded land extends as far as the eye can see, and at the bottom of a valley a brook bubbles along; in the distance the Catskill Mountains stand in prominence. Estee gave a toast, "The next Vice President," to which Morton gracefully responded. The party then entered carriages and were driven to Ellerslie, where they had a delightful time inspecting Morton's new park.

NORTHWESTERN STORM.

Large Section of Country Devastated by the Elements.

ST. PAUL, July 7.—A great storm passed over western and central Minnesota and eastern Dakota yesterday. The wind reached the velocity of a hurricane. At Shakopee, Minn., the great building of the Wampach Furniture Company was badly wrecked; the Cooper building was demolished, and Kobl & Beren's store unroofed. Several frame residences and barn were blown away, and trees and fences torn up and thrown across the highways in such a way as to prevent travel. At Redwood Falls, Minn., several buildings were toppled over, and some burned by lightning. Much damage to fences and crops is reported from the country. At St. Peter lightning burned three buildings, and one of them, a barn containing several valuable horses. Many hundreds of acres of corn were destroyed by hail. Many buildings were blown down in the vicinity of Roswell, Dakota, where the storm swept a strip of country twenty miles wide. At Vilas hail did considerable damage to crops.

PACIFIC CABLE.

Proposed Submarine Telegraph from Vancouver to Australia.

MONTREAL, June 7.—A cable from London says: "The complete breakdown of the Eastern Telegraph Company's system between Java and Port Darwin is creating a strong feeling in the commercial public in favor of a Pacific cable from Vancouver to Australia. The feeling was voiced at the annual meeting of the New Oriental Bank. The Chairman said he went East recently via the Canadian Pacific, and was convinced that a cable via Canada and Australia would greatly benefit the commerce of the empire, giving a clear line of communication through British territory. The break-down existing in Eastern cables emphasized the necessity of an alternative line, and increased the desire of the commercial public for double security against a complete and protracted isolation. The opinion was expressed that the Imperial and Colonial companies should hasten the proposed survey of the route.

An Engine Bombarded.

CHICAGO, July 7.—As passenger train No. 17, on the Burlington road, was leaving Chicago last evening a stone was thrown through the cab window of the engine, narrowly missing the engineer and firemen. At Riverside, and again at Naperville, the engine was bombarded. At the former place a perfect storm of stones were thrown, battering the side of the engine and breaking more glass. At Naperville the fireman was struck on the head with a flying missile, inflicting a scalp wound, but he is not seriously injured.

The Freight Rates Upheaval.

NEW YORK, July 7.—The upheaval in freight rates to the West continues, and is developing many queer phases. The Rock Island Route has been handling the bulk of the green fruit which leaves this city via Kansas City. The rate is $1.03 per hundred pounds, all rail. Yesterday the agent of a certain line offered a shipper $20 per carload commission on his shipment, but he refused, and insisted on $25. The agent held firm at $20, and the fruit, it is now learned, was shipped by another route, presumably on the commission demanded.

Fruit Auction.

CHICAGO, July 7.—The prices realized to-day at the auction of California fruit were as follows: Bartlett pears, $2.25@$2.30; Tuscon cling peaches, $3.35; plums, $2.25@$2.70; apricots, $2.35; German prunes, boxes $2.30, crates $1.25; grapes, $2.35; nectarines, $2.90. Nineteen hundred packages were sold.

NEWS NUGGETS.

Condensed from the "Herald's" Telegraphic Reports.

The bond offerings Saturday at the Treasury Department were $549,500; acceptances, $2,000.

Judge Gresham sailed for Europe Saturday afternoon. He will remain abroad about two months.

New York weekly bank statement: Reserve decrease $2,500,425. The banks now hold $24,516,800 in excess of the 25 per cent. rule.

The University of Cambridge has conferred the degree of LL. D. upon the Episcopal Bishops of Frederickton, New York and Minnesota.

Wm. Heazel, night watchman on the steamer Thoroughfare, at Oakland ferry, was struck while walking on the track by an Alameda local train and instantly killed.

At Lyons, Ia., David Joyce's saw and planing mills and a large amount of lumber were destroyed by fire Friday night. Loss, $150,000; insurance, about $100,000.

Governor Hill has called an extra session of the New York legislature, for July 17, for the purpose of appropriating funds to provide work for convicts in the State prisons.

General Sheridan passed a good night in New York harbor. The war-ship Swatara bore him away Saturday morning from New York up Long Island sound to Monquitt.

The United States steamer Enterprise, which was ashore at Droback, Norway, has been hauled off by a Norwegian ironclad and arrived at Christiania on Friday. She will probably be docked for examination.

W. D. Harper, a saloon passenger on the steamer Celtic, which arrived at New York Saturday from Liverpool, was taken down with smallpox during the passage. The ship was detained in quarantine until Saturday afternoon.

At Long Island City, N. Y., a crowd of drunken roughs tried to force an entrance to the saloon of Thomas Tierney at 2 o'clock Saturday morning for the purpose of getting liquor. Tierney appeared on the scene and in defense of his property fired into the crowd, killing Richard Owens and fatally wounding Cornelius Walsh.

A farm house belonging to George Dobbs, located about seven miles from Sault Saint Marie, Mich., on the Canadian side of the river, was burned on Friday, causing the death of four inmates; a fifth, Mrs. Dobbs, 70 years of age, made her escape, but is badly burned. There is little hope of her recovery.

To Users of the Weed.

On Saturday next Baer and Newbauer, one of the most popular firms dealing in fine tobaccos and cigars, will open, with great eclat, their new store at 124 North Main Street, next the First National Bank. This firm did business at 3 Post Office Court. They cordially invite all old patrons and the public generally to participate in the opening of the new establishment. The senior member of the firm is a native Angeleño while his partner, Alex. Newbauer, is one of the best known and most popular of the city's business men.

TARRANT'S SELTZER APERIENT
THE BEST FAMILY MEDICINE,
TARRANT'S SELTZER APERIENT
FOR Men, Women AND Children!
TARRANT'S SELTZER APERIENT.

Emil Frese's
HAMBURG TEA
IT IS IMPOSSIBLE TO SAY TOO MUCH IN PRAISE OF THIS GOOD OLD STANDARD family medicine. It cannot be too highly recommended, as it is truly a MARVEL OF THE AGE, and no household should be without it. It prevents as well as cures Skin Diseases, Gout, Rheumatism, Gravel, and all Kidney Diseases, Affected Liver, Headache, Nausea, Bile Wind, Indigestion, Constipation, Diarrhœa and Dysentery, Fever and Ague, Sleeplessness, Lassitude, Foul Breath, and every disease brought on or aggravated by a disordered stomach. It is a Specific against contagion and an efficacious remedy for Biliousness, Nervousness, Scrofula, Jaundice and Dyspepsia.
It Purifies the Blood, Cleanses the stomach and Bowels, and gives the whole system a Healthy and Delightful Tone. There never was a Medicine for the Nursery equal to it.
FOR SALE BY ALL DRUGGISTS AND GROCERS.

Those who have used it "Your remedies are giving satisfaction, and a customer with Bronchitis says it is the only remedy that gives instant relief."—SEBRELL & COVER, Druggists, Riverside, Cal.
Have "* * * the pleasure to inform you that your preparations are meeting with large sales. * * * * * * * We hear Nothing but praise from any having occasion to use them."—NEACAWEN & Co., Druggists, Visalia, Cal.
That it will accomplish the end desired in all affections of the Throat and Lungs and you not only will not be without it yourself, but will recommend it to others, as thousands have done who have tried everything else in vain, money is no object where health is in the balance, and the trifling sum of one dollar can Convince you purchase a remedy that will stand between you and one of the most dreaded of human ills.

EXCHANGE REVIEW.

NEW YORK, July 7.—The stock market to-day, while it displayed a greater degree of animation, especially in the first hour, than usual in the day, was almost if not quite as barren of feature. The temper of the room was bullish, and there was some buying by commission houses and foreigners, but the demand for stock was very limited and only about equal to the supply. Towards the close the realization on advances of the week served to sag the list off slightly and the day's operations did very little to raise the prices to a higher level.

Government bonds were dull and steady.

Petroleum opened strong at 76⅝c. and moved up steadily to 78⅝c. on a covering of shorts, caused by a failure of new wells. A slight reaction then occurred, but the market rallied again and closed strong at 78⅛c. Consolidated exchange opening, 76⅛c.; highest, 78⅛c.; lowest, 76⅛c.; closing, 78⅛c. Stock exchange opening, 76¾c.; highest, 78⅛c.; lowest, 76¾c.; closing, 78c. Sales, 133,000 barrels.

MONEY QUOTATIONS.

NEW YORK, July 7.—Money on call not quoted.

Prime mercantile paper 3½@6.

IN THE SUPERIOR COURT

Of the County of Los Angeles, State of California.

In the matter of Robert Eckert and Herrman Schoeneman, partners as Eckert & Schoeneman, insolvent debtors.—Order Adjudication of Insolvency.

Robert Eckert and Herrman Schoeneman having filed in this Court their petition, schedules and inventories in insolvency, from which it appears that they are and have been residents of the County of Los Angeles, State of California, for more than six months next preceding the filing of their petition, and that they have been partners in trade under the firm name of Eckert and Schoeneman, and as such partners as well as individuals, they owe debts exceeding in amount the sum of $500, and that they are as partners, as well as individuals, insolvent debtors, as they are hereby declared to be insolvent.

The Sheriff of the County of Los Angeles is hereby directed to take possession of all the joint stock and property of the partnership, and also all the separate estate of each of said partners, excepting such parts thereof as may be exempt by law, and all deeds, vouchers, books of account and papers, both of the partnership and of said partners individually, and to keep the same safely until the appointment of an assignee in this matter.

All persons are forbidden to pay any debts to the said insolvent debtors, jointly or individually, or to deliver any property belonging to them, or to either of them, or to any person, firm, corporation, or association, for their use, or that of either of them; and the said debtors, jointly and severally, are hereby forbidden to transfer or deliver any property until the further order of this Court, except as herein ordered.

It is further ordered that all the creditors of the copartnership aforesaid be and appear before the Honorable W. P. Gardiner, Judge of the Superior Court of the County of Los Angeles, in open Court, at the courtroom of said Court, Department No. 2, Jones Block, in the City of Los Angeles, on the second day of August, 1888, at 10 o'clock A. M. of that day, to prove their debts and choose an assignee of the estates of said debtors.

It is further ordered that this order be published in the Los Angeles Daily HERALD, a newspaper of general circulation, published in the County of Los Angeles, as often as the said paper is published, before the said day set for the meeting of creditors.

And it is further ordered that in the meantime all proceedings against the said insolvents or against either of them, be stayed.

W. P. GARDINER,
Judge of the Superior Court.

Dated Los Angeles, Cal., June 29, 1888.

IN THE SUPERIOR COURT

Of the County of Los Angeles, State of California, Department No. —

James Pedgrift, John Grant, James Smith, plaintiffs, vs. Pierre Encope, Calmet Francois, Defendants.—Action brought in the Superior Court of the County of Los Angeles, State of California, and the complaint filed in the office of the Clerk of said county. Bower & Heathman, plaintiffs attorneys.

The people of the State of California send greeting to Pierre Encope and Calmet Francois, defendants.

You are hereby required to appear in an action brought against you by the above-named plaintiffs in the Superior Court of the said County of Los Angeles, State of California, and to answer to the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons—if served within this county or, if served elsewhere, within thirty days, or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to quiet title to a certain piece and parcel of land situated in the city and county of Los Angeles, State of California, and particularly described as follows: Commencing at corner of willow fence being Southwest corner of the land of E. N. Fletcher, and running thence along the North line of the Philbin Tract N 63 degrees 25 minutes W 2.05 chains; thence N 10 degrees 50 minutes E 2.36 chains; thence N 58 degrees 25 minutes W 1.15 chains; thence N 29¾ degrees E 4.56 chains; thence S 58 degrees 15 minutes E 7.11 chains to the willow fence of E. N. Fletcher; thence along said willow fence S 31 degrees 10 minutes W 6.33 chains to the place of beginning, containing 4.2861 acres of land, being the identical parcel of land described in a deed dated Sept. 2, 1857, from Pierre Ferran to Pierre Lasabal, recorded in Book 3, page 758, of Deeds of Los Angeles County Records, wherein said parcel of land is described as being 160 varas in length and 80 varas in width, and as then adjoining the land of Julian Rendon, Luis Valenzuela, Teodocio Sais and Pedro Dominguez, as will more fully appear by reference to the complaint filed herein.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiffs will apply to the Court for the relief prayed for in the said complaint.

Given under my hand and the Seal of the Superior Court of the said County of Los Angeles, State of California, this 10th day of March, in the year of our Lord one thousand eight hundred and eighty-eight.

HOLLENBECK BLOCK,

Cor. Second and Spring Sts., Los Angeles, Cal.

All diseases of the respiratory organs treated by the most improved Medical Inhalations, combined with proper constitutional remedies, for the liver stomach, blood, etc. We are also now using the Compound Oxygen treatment which has such a world-wide reputation in lung and nervous affections.

Probably no system of practice ever adopted has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

Over 80,000 cases treated during the past twenty-one years.

CATARRH.

The term Catarrh is applied to a peculiar disorder of the nostrils and adjacent parts, which prevails to an alarming extent, and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times. In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent, or muco-purulent, greenish-yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fetid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disurbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others, a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with gluish tenacity. Its lodgement embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucus into the throat, so as to eject it by the mouth. This practice, popularly known as "hawking," is characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incustrations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled, on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which, in time may destroy the bony structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities, and then putrifies, giving rise to a stench which is really overpowering and sufficiently fetid to poison the atmosphere of a whole room; and there are others in which all the secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness, or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above and behind the soft palate.

Sometimes there is pain obstinately fixed in some particular part, as in the temple, on the top of the head, at the back of the neck, or behind the orbits, and occasionally pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted, and at times assumes an exceedingly fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable, stuffy sensation in the head, and occasioning violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffing quality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "nem," more or less forcibly. In some cases patients complain of an uncomfortable feeling of fullness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness for the temporary relief of which they have to swallow frequently. Others, again, speak of a constant bad or nauseous taste in the mouth or throat.

The stomach generally suffers more or less, and becomes weak and irritable, the appetite is capricious, and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times fearful, timid, agitated and inclined to drowsiness and sleep, the memory weakened and permanent impairment seriously threatened.

The mucuous membrane soon becomes morbidly sensitive to unfavorable influences, and in spite of the utmost care becomes affected from the slightest causes, so that a breath of wind upon the linings of the nose or throat, becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse, and involving a larger extent of surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat, larnyx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the stomach, bowels, kidneys, etc.

By the employment of proper inhalations and Compound Oxygen treatment in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surface in the larnyx and the nasal passages, for air will find its way into the remotest and intricate cavities, where it is utterly impossible to make fluid applications. By these means every case can be cured.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance from business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless, unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing can do with the same success.

The very best reference from those already cured.

Hon. M. Jaqua, a sterling Democrat from old Missouri, is in the city for a short visit. The gentleman is the father-in-law of Mr. Ed. Gibson, an efficient Deputy Internal Revenue Collector in this district. Mr. Jaqua is the guest of Mr. Gibson during his stay.

NEWS NOTES.

A pleasant lawn tennis party was given at the residence of Mr. O. W. Childs on Main street yesterday afternoon.

A force of men is engaged in putting a new passage-way across the river at Downey avenue, parallel with the present condemned bridge.

The Los Angeles Gas Company yesterday filed a notice with the County Clerk that it had increased its capital stock from $540,000 to $1,080,000.

Transfers of real estate yesterday amounted to $234,770 and were 130 in number. Of these 49 were for more than $1,000 each and 37 were for nominal considerations.

About 11 o'clock yesterday morning the roof of the soap works on Banning street was discovered to be on fire. The prompt action of Officer Dillon prevented the destruction of the building.

The First Congregational Church proposes to have good music during the summer months, and have engaged Sig. Modini to lead their choir. He will take charge beginning with to-day's service.

Frank Sarber, who has been in the employ of William McDermott, the livery stable man of 26 and 28 San Pedro street, was arrested last night by Mounted Officer Arnaz and charged with stealing a duster.

Officer Hawley last night arrested Miss Mollie O'Brien and her escort, Charles Alisson, who were driving along New High street in a buggy and creating a disturbance by yelling and screeching. They were charged with disturbing the peace.

At the Cathedral to-day the music will consist of Weber's mass in G major, with a well balanced chorus and good solo singers. The offertory will be a solo for bass sung by Mr. Ferrari. The whole arrangement is under the direction of Mr. A. G. Gardner, organist.

The eighth annual meeting of the Los Angeles Orphans' Home Society will be held in the Presbyterian Church, corner Second and Fort streets, on Tuesday July 10, at 2:30 P. M. All members are entitled to a vote in the election of officers for the ensuing year.

To Become Cities.

The Board of Supervisors met yesterday and decided to order elections to determine as to whether Alhambra and Lamanda shall incorporate, to be held on the 27th inst. F. E. Gray was appointed inspector, and Eli Messenger and W. H. Whittemore judges of the Alhambra election, and S. K. Sewell, inspector, and Geo. W. Healey and E. H. Boyce, judges of the Lamanda election.

HOUSE DECORATING.

Some Splendid Work Done By Mr Howland of This City.

Los Angeles is lucky to have in her midst one of the most expert house decorators in the United States. This gentleman is Mr. Fred G. Howland, who has had many years of experience, both here and in the East, and who comes of a family all of the members of which have become prominent in the same business. During his stay here Mr. F. G. Howland has decorated some of the finest residences and offices in the city, and in every instance has given the utmost satisfaction to his employers. Although handling every class of business connected with his trade, Mr. Howland makes a specialty of church and hall work. He can be found at Nos. 74 and 76 South Main street, Los Angeles.

Our Ladies' Department is the finest on the coast, which is open from 8 A. M. to 7 P. M. daily. Gentlemen's Department open day and night. These baths are the only preventative for colds and their results, as well as in cases of exposure to contagious diseases. A well given Hammam Bath has no equal as an agent to promote and restore healthful activity in the human system. Elegant plunge bath in connection with the establishment. BATHS, $1. No extra charge for room over night for gentlemen.
